qualifications,
professional and/or
community activities,
and education

To Whom It May Concern:
Sustainability and moving towards a sustainable future for the
coming generations has been the motivating source of my
academic career. My undergraduate work focused on food
insecurity and the food waste problem pervasive throughout the
globalized world. With a lens of anthropology and food justice,
one is forced to equate sustainability to social justice and equity.

10. Please describe
why you're interested
in serving on this board
or commission

I'm currently an instructor at Whatcom Community College, and
was recently offered the position of Sustainability Faculty
Coordinator (and I act as chair of the Sustainability Committee).
This role is meant to help WCC connect with the community at
large, and therefore, I thought serving on this board would be
beneficial to Whatcom Community College and help us
collaborate with the climate change efforts of our city. Also, it
would give me a chance to disseminate information from the city
to our college, and student body.

I believe that I bring a unique perspective as I a community
member at large. Not only have I volunteered at surrounding
farms, supported local sustainable and climate justice initiatives, I
am also an MNAC representative, and I have used this platform
to bring to light redlining in our city & I have been part of planning
/development talks surrounding the housing crisis; recently, I
endorsed Christine Grant for PUD Commission in this year's
election because she is campaigning to become more energy
efficient, and I have spoken twice at City Council meetings on the
matter of moving away from fossil fuels in the core Bellingham
commercial buildings. Additionally, I have been part of the SAFE
Cities Bellingham Chapter/workgroup since October.

Thank you in advance for considering me for this position,
sincerely,
Irena
