interest in response to the following questions

9. Please describe your occupation (or former occupation if retired), qualifications, professional and/or community activities, and education	<p>Climate & Energy Policy Manager at RE Sources for Sustainable Communities, currently-- --formerly Clean Energy Program Manager (2016-19), Clean Energy Organizer (2014-16)</p> <p>Northwest Energy Coalition, "4 under 40" Awardee 2019 (honoring energy policy professionals in WA, OR, ID and MT)</p> <p>Supplementing my own expertise, I actively collaborate and communicate with a broad network of experts and energy professionals across the Pacific Northwest and beyond. I have attended numerous conferences and seminars on climate change and energy policy in several states, including the COP21 in Paris, 2015.</p>
10. Please describe why you're interested in serving on this board or commission	<p>I would be honored to serve the county in a formal capacity on this committee. Back in February 2016, I wrote to Whatcom County Council with the suggestion to establish a Climate Impact Advisory Committee, which was thereafter established and convened in 2018. I have attended the majority of the CIAC meetings to date, regularly providing input and reviewing meeting materials and related briefings from meetings missed. I have an expansive general knowledge of a range of issues related to climate change (causes, consequences, structural solutions, various frameworks and approaches), energy and power (fossil fuel and renewable), utilities structured in WA state, municipal land-use planning, environmental law and policy, county code & development regulations, industrial permitting processes, legislative and rulemaking processes. Through six years of experience working in my field, I've also gained deeper understandings of the complexity and challenges in climate policymaking, engaging with stakeholders, balancing intersectional concerns and addressing community needs in the pursuit of lasting solutions that can lead to eventual stabilization of greenhouse gas levels in Earth's atmosphere, and adaption to the impacts of anthropogenic climate pollution.</p>
