Subject: Whatcom County Health Department Recommendation for the Food System Committee

The Whatcom County Health Department recommends Sean Hopps for the Labor Issues position on the Food System Committee. Sean has extensive experience with working on behalf of food system laborers. He brings the perspective and lends a voice to the many food system laborers who pick, process, and serve our food. He has also been involved with the Whatcom Food Network, our community's communication and collaboration partner.

As we are in the final stages of developing our food system plan, it is imperative that we include labor representation in the process. Sean will be a good addition to the existing committee.

Please let me know if you have any questions.
