MOTION SUMMARY: Motion Approved 7-0 to use up to \$160,000 of unspent ARPA funds from the Public Health bucket to fund services to children under the Single Entry Access to Services (SEAS) program.

(From Council Public Works and Health Committee)

8. [AB2023-522](#) Discussion and request for motion related to Behavioral Health Fund opportunities and recommendations (Council acting as the Health Board)

Kershner reported for the Public Works and Health Committee and **moved**

that they recommend all the items with the exception of the Meridian School District \$2 million Capital funding package and with the caveat that we fund them for three years and ask for a review after one year.

She stated there is a concern about setting up health clinics in schools and she sent an email to the Health Department Director.

Kershner moved to amend the motion from committee to remove the item that has to do with setting up a study to set up health clinics in schools until they can get some more information about that. The motion was seconded by Byrd.

Councilmembers discussed the motion and Kershner stated it would include the item (in blue) labeled as, “Assess needs, costs and resources to build and operate a school-based health clinic (SBHC)” for Nooksack, Ferndale, Blaine, and Lynden School as well as the item (in red/orange) labeled as “Capital for expansion of SBHC to include BH” for Bellingham School District. She stated it looks like it is a study but she would like to know what it is we are doing with that.

Elenbaas commented on the requests in the plan and Kershner stated her interest is in getting more information about these school-based health clinics.

Kershner restated her motion to amend the motion that came to the full Council from the committee to remove the “Assess needs, costs and resources to build and operate a school-based health clinic (SBHC)” for Nooksack, Ferndale, Blaine, and Lynden School in the amount of \$30,000 (in blue) and then remove “Capital for expansion of SBHC to include BH” for Bellingham School District (in the red/orange section) for \$427,750.

Frazezy stated a lot of these students do not have access to mental health help and she thinks it is important to have access right there. She would like to move ahead with this and she would like it to be funded by this Behavioral Health Fund instead of American Rescue Plan Act (ARPA) funds.

Donovan asked to hear the motion again and stated he wants to know how it relates to what they discussed in committee. He spoke about concerns he raised about looking at equity in terms of how we are using our county and sales tax funds to prop up school district funding.

Erika Lautenbach, Health and Community Services Director, described the school-based clinics and their most commonly used services. She stated the

project in Bellingham is already moving forward and this would be to provide additional behavioral health services on top of the school-based physical services at that site. She answered whether parents have access to the records of services that their child might be receiving after the child turns 13 and stated by state and federal law, parents have access until the child is 18, and parental consent is required for any services rendered.

Kershner stated state law in Washington does allow 13-year-olds to exclude their parents from their healthcare records if they want to.

Lautenbach stated she is not sure where Kershner heard that and Kershner stated she heard it from her daughter's pediatrician. It is the Mature Minor Rule.

Lautenbach stated this is for very basic health services.

Kershner stated that sounds supportive and something people would definitely benefit from. The concern is around what else is offered and how that program might grow. If this amendment does not pass, she will have to vote no on the entire motion.

Elenbaas stated he has the same concerns as Kershner and feels a lot of what he just heard from Lautenbach, from his experience, has been incorrect. A child that needs a physical gets it regardless of how much it costs. There are already programs set up for that. It is not that he does not agree with people that need help getting help, he just does not think the school systems are the vessel to do that.

Lautenbach stated this is \$30,000 for staff time in order to help school districts who are already interested in pursuing this, independent of whether the County agrees with them pursuing this or not. The school districts have the autonomy and authority to pursue these grants from the State and Federal government, and this is \$30,000 for staff time to support their efforts in doing that. So, whether the County participates or not, school districts have the authority to move forward in this direction.

Byrd stated he is supportive of everything Lautenbach was describing and they are great programs for kids. He asked whether there is a way they can update this so that they can specifically tie the funds to those services. He shares Kershner and Elenbaas' concerns and does not want to see the funds being used for any other services or scope creep.

Galloway spoke in opposition to the amendment because she thinks they

should move forward with assessing the needs for this in the rural school districts and she believes her constituents in Bellingham would want this in the Bellingham School District. She thinks it is important to offer these services on campus to be inclusive and provide access, especially for behavioral health.

Elenbaas read the HIPPA age limit in Washington state.

Kershner repeated the motion for Councilmembers.

The motion to amend the main motion carried by the following vote:

Aye: 4 - Buchanan, Byrd, Elenbaas, and Kershner

Nay: 3 - Donovan, Frazey, and Galloway

The main motion carried by the following vote:

Aye: 5 - Donovan, Frazey, Galloway, Kershner, and Buchanan

Nay: 2 - Byrd and Elenbaas

Kershner reported for the Public Works and Health Committee and ***moved*** to request a plan from the Administration for securing other local or state funding to stabilize beyond year three.

The motion carried by the following vote:

Aye: 6 - Donovan, Frazey, Galloway, Kershner, Buchanan, and Byrd

Nay: 1 - Elenbaas

Kershner reported for the Public Works and Health Committee and ***moved*** that they encourage the Administration to bring back a proposal on how to fund the Meridian School District expansion of their Whatcom Early Learning Center to include behavioral health services.

Frazey stated she would like to look at different funds other than ARPA.

The motion carried by the following vote:

Aye: 6 - Donovan, Frazey Galloway, Kershner, Buchanan, and Byrd

Nay: 1 - Elenbaas

Kayla Schott-Bresler, Strategic Initiatives Special Programs Manager, asked whether the request to look at different funds other than ARPA is for anything beyond that \$2 million of ARPA funds already provided for the Meridian project and Frazey said it is.

Kershner stated the \$2 million that is in the list is from the Behavioral

Health Fund, but they are holding that because there are some potentially different funding sources that they were alerted to today. She asked whether the Administration is keeping track of what that looks like and Schott-Bresler stated that is correct and they understand the Council's intent.

Galloway spoke about the health clinic discussion and stated she is interested in having Health and Community Services and representatives from each school district that had a school-based health clinic request to present to the Council at a future meeting and/or send them an email with information.

Frazey clarified with Schott-Bresler that \$2 million had already been allocated to the Meridian Early Learning project and this was going to be an extra \$2 million from the Behavioral Health Fund. Schott-Bresler stated Meridian was tentatively awarded \$2 million as a result of the County's ARPA child care grant process for the childcare components, and they have asked for an additional \$2 million from the Behavioral Health Fund. The Administration's recommendation is for us to work with the district and the Legislature to find the most appropriate funding sources with the understanding that it is Council's intent to make an additional contribution, not from ARPA, to the that project.

This agenda item was DISCUSSED AND MOTION(S) APPROVED.

9. [AB2023-485](#) Resolution affirming that affordable housing and homelessness are a public health crisis and requesting updates on county actions (Council acting as the Health Board)

Kershner reported for the Public Works and Health Committee and *moved* that the SUBSTITUTE Resolution (Revised Substitute Resolution Following 8.8.23 PW&H tracked), as amended in committee, be APPROVED.

Councilmembers discussed which version they were working from and whether the added language from committee asserts that substance use causes homelessness.

Kershner's motion that the SUBSTITUTE Resolution be APPROVED AS AMENDED carried by the following vote:

Aye: 6 - Buchanan, Byrd, Donovan, Frazey, Galloway, and Kershner

Nay: 1 - Elenbaas

ITEMS ADDED BY REVISION

This item was already on the agenda but was considered here.

10. [AB2023-529](#) Discussion and approval of a joint Council/Executive letter to the Port of Bellingham regarding broadband investments

Kayla Schott-Bresler, Strategic Initiatives Special Programs Manager, briefed the Councilmembers.

Galloway moved to approve the joint Council/Executive letter to the Port of Bellingham regarding broadband investments. The motion was seconded by Buchanan.

Schott-Bresler answered how much money we have in the Economic Development Investment (EDI) fund, whether this \$4 million would be a grant or a loan or a combination of both, what the time sensitivity is on this, whether these are American Rescue Plan Act (ARPA) dollars that we already committed to this goal, whether this would just start the conversation and the process of going through the EDI Board before it would come back to the Council again, whether using EDI funds would mean we would then have \$4 million of ARPA funds that are unallocated, whether the Port would not get the match because they did not get their funding, whether we have other projects coming down the pike for which EDI funds can be used, and whether approving this would be a commitment of the Council's interest.

Galloway stated she is in support of the letter and wants to support opening up some of the ARPA funds for some of our more urgent needs.

Donovan moved to hold until the next meeting. The motion was seconded by Byrd.

Schott-Bresler answered how that timeline meets up with a prospective presentation from the Port and Council's ARPA funding discussion and stated the Administration has no objections to waiting until September and for Council to consider this as part of that larger ARPA discussion.

Buchanan stated another part of the discussion could be the context around the EDI fund and other EDI requests so they would be able to prioritize.

Frazey asked if the Port could come up with another model in which the infrastructure does not go to the provider after 25 years.

Kershner requested that the Port come prepared to give the Council an idea of what \$4 million is going to look like and to answer Councilmember Frazey's question about what happens after 25 years.

Donovan's motion that the Request for Motion be HELD UNTIL THE NEXT MEETING carried by the following vote:

Aye: 7 - Buchanan, Byrd, Donovan, Elenbaas, Frazey, Galloway, and Kershner

Nay: 0
