agency that does business with
Whatcom County? Yes

If yes, please explain
I work for Anchor QEA, which has in the past done some work for Whatcom
County. I do not personally do any work for Whatcom County at this time.

9. Please describe your occupation
(or former occupation if retired),
qualifications, professional and/or
community activities, and education

I am a senior managing coastal engineer with Anchor QEA at present. I have
about 20 years of experience in that field; working in academic, non-profit, and
consulting environments. I have a B.S. in Civil Engineering and a M.E. and Ph.D.
in Ocean Engineering. I am serving currently on the ASCE Sea Level Change
Subcommittee and will be a primary author on the guidance document being
developed by that group (geared towards resiliency design guidance for ports). I
have been involved in marine focused research and projects on the Atlantic,
Pacific, and Gulf Coasts, and have focused on the Puget Sound area for the last
decade. I have been in Bellingham since 2008.

10. Please describe why you're
interested in serving on this board
or commission

I am passionate about conserving and restoring the marine environment. Based
on 20 years of experience working in the coastal science/engineering field, I have
a practical understanding of how our marine resources are used and valued by
governmental entities, industry, tribes, and the general public (and many others).
These uses and values are often contrary to each other, and it is challenging to
find the right balance to ensure that these resources will be around when my
children are my age. My kids are now older (two off to college, one in high
school), and I have more time to focus on giving back to my community. I value
and admire the work conducted by the MRC, and feel that my technical
background could be of value to the group. Thank you for your consideration.
