Subject: Levy Rates/Funding by County - IAFF Local 106 Response
Attachments: County Levy Rates.xlsx

Hello everyone,

As mentioned last night at the County Council meeting, attached is the 2024 Levy rates (the latest data) for Whatcom, Skagit, Snohomish, King, Pierce, Thurston, Kitsap, Yakima and Spokane County. The source is MSRC.org, they pull data from the WA Dept of Revenue. In addition, keep in mind dispatch fees in Whatcom County are also paid by the EMS Levy, in many of these other jurisdictions the public pays an additional 2/10ths of 1% to cover dispatch fees.

You will see that only three jurisdictions in the 2024 Table (click on 2024 Table Tab at bottom of page) that have a lower levy rate than Whatcom County. This includes Medical Lake in Spokane County (We assume the Levy no longer exists based on the 0) Thurston County Medic One that shows both a levy and a Levy Lid lift which when added together is higher than Whatcom County. Outside of those two the only service (out of 66 jurisdictions) that has a lower levy rate than Whatcom County is Snohomish Fire District #10.

We understand there are other variables like population size and assessed valuation of an area, however the fact that the Whatcom County EMS Levy rate is virtually second last out of 66 existing jurisdictions is also a strong indicator of a funding issue. Even at the full Levy Rate voted and approved by the voters the Whatcom County Levy rate would be lower than 48 other jurisdictions and sixteenth from the bottom of the list.

In addition, during the EMS Levy Planning process it was articulated from operations level personnel that the 29-cent levy rate would not be enough to fund the system and maintain the reserve. Keep in mind these are the professionals in the fire service with a unique understanding of the day-to-day operations and costs. Their suggestions and professional advice were ignored, resulting in putting all of us in the position we are in today, fighting to get the funding the voters approved. Forward planning, budgeting, resistance to fund the system adequately and timely contract execution and explanations should take responsibility.

IAFF Local 106 will continue to encourage the EOB, the TAB the County Council and County Executive in the following areas:

*Follow the Voters intent, take the banked capacity and maintain all current services in the approved Fire Based Levy Plan and as voted on by the public. These are directed and designated funds for only EMS Levy use.

*We ask the EOB, TAB and the County Executive review their designated roles in the EMS Levy processes in regard to financial decisions and then operational decisions. We appreciate all the hard work that has been done by all of you, our intentions are the same, work hard and provide a good service to the public. To work properly all these individuals and groups should only fulfill the intent of their positions.

*We continue to encourage all parties to rely on our fire service professionals (Fire Chiefs and Division Chiefs/MSO's) when making operational decisions and in regard to long term planning. This is their profession

and should be relied on, the impacts of not doing this in regard to funding is already being seen. The fire community as a whole has never been so in line with each other.

*We request a formal review of the Citizen at Large positions on the EOB. One current member has a personal interest at some level with a business that he has to some extent referenced in EOB meetings, the other is an employee of the EMS office. Considering there are an estimated 235,000 people in Whatcom County we find it hard to believe with all things being equal these members were chosen through an objective appointment process.

*We request a review of how the Chair of the EOB is appointed, who has general supervision and oversight of the EOB and what the term limits are for all EOB members?

*We request that Executive Sidhu refrain from incendiary comments in regard to our members' wages, paramedic class and the system being too expensive without providing any documented facts. With all due respect the Executive does not have a deep understanding at any level of our work. In addition, the easy and simplistic tag line of being too expensive is both inaccurate and is rarely followed by any data or facts.

Our members' wages are based on RCW 45.56 and the collective bargaining laws in Washington State between employees and employers. We bargain with our employer with comparable jurisdiction across Washington State. Out of our 10 comparable jurisdictions we are in the middle of them in regard to pay, not at the top. Any of our members that "Made more than the Mayor" fulfilled their 47.4-hour workweek, their 2472 annual contracted hours as well as additional hundreds and in some cases thousands of additional annual hours. Lobbing out incendiary comments without the facts is divisive and in no way is working to correct the problem at hand. In addition, statements like this are unnecessary and alienate our members that are out doing great work every day in the community on and off duty.

The paramedic class has been run with a skeleton staff for decades only recently getting additional administrative staff and another part time instructor. Most importantly it has a formula based on decades to produce medics that can work in Whatcom County. The Whatcom County medic class is proven and respected, bringing firefighters from multiple other jurisdictions to the class. The idea that you can parachute medics in that have a paramedic card from a random school elsewhere and that they would first pass the entry level firefighter qualifications and then pass our Whatcom County evaluations is flawed. These medics rarely make it through our process, only I-5 medics that have worked in an I-5 system have a consistent chance of making it through our process. In addition, there is no time savings or money savings with a model of lateral medics and I-5 medics are not lining up to come to Whatcom County due to proximity and in a lot of cases lower wages.

The other model of sending medics out of town to be trained is another flawed system that is both costly and a major impact on members wishing to be paramedics. The pay for members while away training, travel, food and housing results in a cost prohibitive program. The time away from home will severely impact paramedic student application numbers. The above-mentioned two models have also been talked about in the past and been found to be cost prohibitive and unworkable.

Again, please engage the fire service professionals, they already have seen this and have these answers. In the most simplistic of explanations If we needed to know how to farm, we would talk to a farmer, not a paramedic, if we needed to wire a house we would talk to an electrician, not a fire chief. We are asking all of you to consider doing the same things.

Sorry for the lengthy email, we have spent years standing by listening to comments about our members and the system, we are no longer willing to do that. We work in a cost-effective system that just needs to be funded at the appropriate level. We have also looked at the EMS Levy budget and as you know most of it is fixed costs.

Thank you to everyone for all the hard work you are putting in, it is appreciated. We are asking once again to focus on the issues at hand and not our members' bargained wages, the paramedic class or baseless claims lobbed out about the system in general, especially without an educated or experienced based reference point.

I am happy to talk with anyone at your convenience about the work we do on a daily basis, we are also willing to be part of discussions and solutions based on data and facts.

Thanks,

*Scott Farrell
President
Bellingham/Whatcom County
Firefighters
