8. Please describe why you're interested in serving on this Advisory Group.

I've been educating myself and involved in many things having to do with the South Fork of the Nooksack River. I worked with a group of people before Covid on an educational committee that was dedicated to increasing local people's knowledge of the South Fork Watershed. This committee offers a good opportunity to continue that kind of work since that committee isn't happening. I've learned a lot in the past four years and want to continue to expand the usefulness of this SubZone in reaching out and helping people in our community.
