School Based Mental Health Services in 2018-19... a closer look: Kaatri Jones

- Established mental health counseling offices in each school building in the district
- Contracted with four licensed professionals in the community to serve students one day per week
- Served 3.5% of Blaine student population (77 students) through a combination of health department, district and grant funding

Goals for future services:

- 1) Decrease referrals and waiting lists in each building through continuing and strengthening preventative/ system work
- 2) Increase school based counseling services to 5% of student population
