4. AB2024-579 Resolution approving the 2025-2030 Six-year Transportation Improvement Program (STIP)

Doug Ranney, Public Works Department, stated he had no further presentation on this beyond what he gave in the August 6 committee discussion (**AB2024-503** in Public Works Committee).

Buchanan opened the Public Hearing and hearing no one, closed the Public Hearing.

Galloway moved and Byrd seconded that the Resolution be APPROVED.

The following people discussed the resolution with the Councilmembers:

- Doug Ranney

- Kayla Schott-Bresler, Executive's Office
- Aly Pennucci, Executive's Office
- Satpal Sidhu, County Executive
- Elizabeth Kosa, Public Works Department Director

Donovan brought up a concern from a letter received via email by the Council regarding a change in the amount allocated for non-motorized multi-modal trails for transportation. It noted that project number Y5 ("Unanticipated non-motorized improvements") is no longer in Exhibit A or the Six-Year Transportation Improvement Program (STIP) (as it was in the August discussion of the resolution), but also not reflected in Attachment A of this version as being a change.

Ranney stated Public Works needed to substantially reduce the capital program budget in order to present a balanced budget and right-size the Road Fund moving forward so they removed \$4.5 million of local money from year one of the STIP and most of their unanticipated projects were removed as part of that process.

Donovan stated they are expecting a budget from the Executive that may or may not replace some of these funds from the Road Fund and asked how this would fit in with the budget the Executive is going to be proposing. He asked how long they would be setting the projects back that are not on the STIP if they approve it tonight.

The speakers discussed the process to amend the STIP outside of the annual process, the fact that amendments to the Annual Construction Program (the first year of the STIP, and the document by which Council gives the authority to spend the money on the capital projects) requires a unanimous vote of the Council, that affording the original proposal could theoretically be possible if the Executive proposes a budget which includes taking the County's banked capacity, whether the projects should be included in the STIP now or made "pending," and excluded later if necessary, a statutory responsibility of Public Works to introduce the Annual Construction Program by October first (which is year one of this six-year program), whether Council could introduce the one without the changes, other non-motorized improvements that are still on the STIP, and whether they could hold this until the end of this meeting in order for the Administration and Public Works to come back with a more thorough explanation.

Galloway moved to hold until the end of the meeting. The motion was seconded by Byrd.

Galloway amended her motion ***and moved*** to hold until Other Items (under the COMMITTEE REPORTS, OTHER ITEMS, AND COUNCILMEMBER UPDATES header).

The motion carried by the following vote:

Aye: 6 - Galloway, Scanlon, Buchanan, Byrd, Donovan, and Elenbaas

Nay: 1 - Stremler

This agenda item was DISCUSSED AND MOTION(S) APPROVED (see further action below under Committee Reports).

CONSENT AGENDA ITEMS CONSIDERED SEPARATELY

- 1. AB2024-605 Request authorization for the County Executive to enter into a contract between Whatcom County and the Northwest Resource Group for development of a forest management plan in the Lake Whatcom Watershed, in the amount of \$133,060

Donovan reported for the Finance and Administrative Services Committee and moved that the Contract be AUTHORIZED.

Councilmembers discussed the item with the following people:

- Bennett Knox, Parks and Recreation Department Director
- Satpal Sidhu, County Executive

They answered how the land will be managed and whether there will be a harvest plan, whether *not* funding this would likely result in less management, and plans for recreation and where it will be incorporated.

Sidhu stated they need to manage the forest and make sure there is less fuel there for safety's sake. Harvesting may be part of the management, but not just for harvesting's sake. Any money that comes out of the harvest will go back into managing that forest.

Scanlon stated there have been many advisory committees that have consulted on this work.

Donovan stated he hopes the history of the reconveyance will also go to the consultant because management included more than just fire suppression; it was for public park purposes, with all kinds of recreational and forestry plans.

Councilmembers and the speakers discussed the City's priorities in managing the land.

Donovan's motion that the Contract be AUTHORIZED carried by the following vote:

Aye: 7 - Buchanan, Byrd, Donovan, Elenbaas, Galloway, Scanlon, and Stremler

Nay: 0

2. [AB2024-606](#) Request authorization for the County Executive to enter into an interlocal agreement between Whatcom County and the City of Bellingham for a partnership in the development and implementation of the forest management plan in the Lake Whatcom Watershed, where the City will reimburse the County for contract costs in the amount of \$41,295

Aye: 7 - Buchanan, Byrd, Donovan, Elenbaas, Galloway, Scanlon, and Stremler

3. [AB2024-607](#) Request authorization for the County Executive to enter into an interlocal agreement

amendment between Whatcom County and Washington State Department of Health to fund various public health services in the amount of \$2,733,126, for a total amended agreement amount of \$18,991,359

Donovan reported for the Finance and Administrative Services Committee and **moved** that the Interlocal be AUTHORIZED.

Kayla Schott-Bresler, Executive's Office, answered whether this contract is strictly increasing revenue and not expending General funds and stated that is correct.

Satpal Sidhu, County Executive, and Schott-Bresler answered questions about what the \$529,929 (for "COVID19 Vaccine") can be used for while there are other needs the public is asking for, such as food.

Donovan stated that some of that funding is for staff.

Councilmembers and Schott-Bresler discussed the funding and whether it has flexibility.

Byrd read more about the break-down of what the funds will be used for from **AB2024-594**.

Donovan's motion that the Interlocal be AUTHORIZED carried by the following vote:

Aye: 5 - Buchanan, Byrd, Donovan, Galloway, and Scanlon

2. AB2024-594 Ordinance amending the 2024 Whatcom County Budget, request no. 12, in the amount of \$9,347,192

Donovan reported for the Finance and Administrative Services Committee and *moved* that the SUBSTITUTE Ordinance be ADOPTED.

Councilmembers discussed COVID-19 vaccine funding, the long-term prospect for the related staff positions, and the purchase of a property in the Acme area with Conservation Futures Funds (Request #4763) and whether the purchase is a good use of that money.

Bennett Knox, Parks and Recreation Department Director, answered questions about the funding for the acquisition and whether it is solely funded with our local dollars, and stated that is correct. He answered whether there are connections to purchases that other entities have made, including the Whatcom Land Trust, and stated the purchase was made possible because the Land Trust was able to move nimbly to purchase the land from the previous owners, allowing us to then put in place County funding for purchase by the County.

Donovan's motion that the SUBSTITUTE Ordinance be ADOPTED carried by the following vote:

Aye: 5 - Buchanan, Byrd, Donovan, Galloway, and Scanlon

Nay: 2 - Elenbaas, and Stremler

3. AB2024-596 Ordinance establishing a project-based budget for the Lookout Mountain Road Repair Project Fund

The following people answered questions:

- Bennett Knox, Parks and Recreation Department Director
- Kayla Schott-Bresler, Executive's Office
- Satpal Sidhu, County Executive

Stremler asked whether the Lookout Mountain Road Repair Fund is this coming about just because of this particular repair and he spoke about the responsibilities that become the County's burden from owning properties.

Knox answered whether this is a private road that only services the towers that the County leases or a public County road, and stated it is accessible but only serves the towers. He stated that forest management would hopefully alleviate the type of event that caused this slide, and there may be

an opportunity to look at how they might mitigate these types of events in the future.

Schott-Bresler answered whether the County gets lease revenues from the towers, and stated that is correct.

Sidhu answered whether there is an interlocal that addresses maintenance of access roads that lead to any of this kind of infrastructure, and stated he could not think of one off-hand.

Buchanan stated the County and the Health Department have both joined the organization Government Alliance on Race and Equity (GARE) and generally follow those guidelines.

Kayla Schott-Bresler, Executive's Office, stated the County does not have formally- adopted goals but she pointed the Councilmembers back to the resolution they passed a few years ago (**Resolution 2020-054**) declaring racism a public health crisis.

Councilmembers and Satpal Sidhu, County Executive, discussed the concept of diversity, equity, and inclusion, whether this is a solution for a problem that does not exist, and the motion.

COMMITTEE REPORTS, OTHER ITEMS, AND COUNCILMEMBER UPDATES

Councilmembers continued the discussion from earlier regarding AB2024-579.

- AB2024-579 Resolution approving the 2025-2030 Six-year Transportation Improvement Program (STIP)

Aly Pennucci, Executive's Office, stated in response to issues with the Road Fund, nothing was cut from the plan, but some spending proposals were pushed out further into the six-year program. It does not take a unanimous vote to amend the Six-Year Transportation Improvement Program (STIP) in the future; it takes a unanimous vote to amend the Annual Construction Program. She stated the recommendation of the Administration and Public Works Department is to adopt the STIP as presented on the agenda this evening. This will allow Public Works to move forward with the statutorily-required proposal for the Annual Construction Program. In the meantime, the Administration will make a decision about whether or not the Executive's budget will recommend use of banked capacity, and if the answer is yes, then Public Works will submit for introduction on October 8, 2024 an Annual Construction Program that will bring the spending back into the current biennium, and an amendment to the STIP that Council will have just approved. She answered questions about that process and the possibility of considering the STIP earlier in the future to give Council opportunity to deal with any issues or amendments.

Scanlon spoke about ways they could advance bike and pedestrian infrastructure investments in the future.

Galloway moved and Byrd seconded that the Resolution Requiring a Public Hearing be APPROVED. The motion carried by the following vote:

Aye: 7 - Buchanan, Byrd, Donovan, Elenbaas, Galloway, Scanlon, and Stremler
