

**RESOLUTION NO. \_\_\_\_\_**

**STATEMENT OF SUPPORT AND APPRECIATION OF THE WHATCOM COUNTY  
SHERIFF'S DEPARTMENT, WHATCOM COUNTY SHERIFF DEPUTIES, WHATCOM  
COUNTY CORRECTIONS DEPUTIES AND SUPPORT STAFF**

**WHEREAS**, Whatcom County Sheriffs and Corrections Deputies along with their essential support staff perform services that are vital to public safety and the administration of justice; and

**WHEREAS**, Whatcom County Sheriff's Office Corrections Deputies are responsible for the custody, security and safety of many potentially dangerous people and are exposed to many inherent dangers. When trouble arises our Deputies willingly accept the responsibility to run towards danger, rather than away; and

**WHEREAS**, as a community we ask our Whatcom County Sheriff Deputies to be prepared at every call to determine if they need to prevent, detect, and investigate criminal activities or connect victims and others in need to social services, mental health, drug and alcohol treatment options; and

**WHEREAS**, as of September 11, 2020, F.B.I. data reports thirty-seven law enforcement officers have been reported feloniously killed in 2020, eight were victims of an ambush (entrapment/premeditation), two were a victim of an unprovoked attack including Police Officer Shoop of Bothell, Washington Police Department, July 13, 2020; and

**WHEREAS**, on September 19, 2020, the Ferndale Border Patrol Facility was vandalized with violent messaging against Border Patrol Agents.

**WHEREAS**, on September 22, 2020, a fire at the home of a Washington State Patrol trooper in the Everson-Nooksack area is being investigated as an arson; and

**WHEREAS**, for decades, governments across the nation have asked law enforcement to provide front line intervention and assessment of cases of mental illness while often being unwilling to provide the funds necessary to equip officers with the tools to identify and respond to mental illness appropriately. Which has led to both citizens and police calling for more money to be spent on alternative ways to respond to situations that don't involve the use of law enforcement; and

**WHEREAS**, one of the causes some communities have been unsuccessful in reducing racial injustice and overly aggressive responses by members of law enforcement who have proven to be poorly suited to the job, is the lack proper funding to hire strong leadership capable of change management, extensive screening and testing of new applicants, adequate ongoing training, supervision and oversight; and

1           **WHEREAS**, recognizing that alternative programs are not a new concept to our  
2 community, that the Whatcom County government has for many years, worked with the  
3 Whatcom County Sheriff Department, Whatcom County Jail Deputies and Staff, the  
4 Whatcom County Courts and other agencies in de-escalation and other non-traditional law  
5 enforcement techniques and justice options; and  
6

7           **WHEREAS**, listed in "Alternatives" (attached) are some of the things our community  
8 has already been funding for many years to promote racial justice, reduce incarceration and  
9 recognize that many need mental health or substance abuse treatment rather than  
10 incarceration. Yet we all acknowledge it is but a base from which further progress must and  
11 will be made; and  
12

13           **WHEREAS**, the community wants us to continue (a) reducing the number of  
14 incidents involving the use of deadly force by funding our long-established, on-going  
15 training of Sheriff and Corrections Deputies on force response and de-escalation; effective  
16 techniques for intervening with those undergoing behavioral health crisis; and use of non-  
17 lethal techniques and equipment, and (b) leveraging our Mental Health Deputy program;  
18 Crisis Negotiation Team; Community policing through Neighborhood and Resident Deputy  
19 programs etc.; and  
20

21           **WHEREAS**, calls to cut local law enforcement funding in response to problems  
22 experienced elsewhere in the country, if applied here, would negatively impact local law  
23 enforcement's involvement in the existing alternative social and criminal justice programs  
24 our community has been investing in for years; and  
25

26           **WHEREAS**, calls to cut local law enforcement funding would by necessity result in  
27 (a) delaying deployment of Sheriff Deputies body cameras, which hold both officers and  
28 offenders, accountable to the objective reporting standards that only video can provide and  
29 (b) reduce training, supervision and oversight; and  
30

31           **NOW, THEREFORE, BE IT RESOLVED**, that Whatcom County Council supports and  
32 appreciates our Sheriff's Deputies, our Corrections Deputies, the Whatcom County Courts  
33 and their respective support staff, plus the many other local agencies who work alongside  
34 them to keep the safety and health of all members of Whatcom County our top priority; and  
35

36           **BE IT FURTHER RESOLVED**, the Whatcom County Council condemns these and all  
37 acts of violence against Law Enforcement Officers; and  
38

39           **BE IT FURTHER RESOLVED**, that Whatcom County Council supports and  
40 appreciates the need to promote further racial and economic justice, that in doing so we  
41 acknowledge both our historical failings and progress, and fully commit to continue to do  
42 more in the future; and  
43

44           **BE IT FURTHER RESOLVED**, that Whatcom County Council asks our community to  
45 step forward, to promote racial justice by (a) continuing to provide financial support for (a)  
46 our investment in a qualified and skilled law enforcement agency, (b) the Alternatives listed  
47 along with the law enforcements ongoing participation in these programs; and  
48
