

MEMORANDUM

TO: Satpal Sidhu, Whatcom County Executive

FROM: Rod Lamb, Design & Development Manager

THROUGH: Bennett Knox, Director

DATE: May 21, 2024

RE: Puget Sound Energy Easement – Stimpson Family Nature Reserve

Enclosed please find a Puget Sound Energy Easement agreement allowing installation and operation of private electrical services to an adjacent parcel at Stimpson Family Nature Reserve.

Background and Purpose

Puget Sound Energy has requested Whatcom County allow for a private utility easement across Park property that is co-owned by the City of Bellingham to service a private adjoining property. The proposed easement lies entirely within an existing private road access easement agreement that is held by the same property and will not result in any additional private encroachment onto public property. Parks recommends approval of the utility easement

Funding Amount and Source

This is a no cost private utility easement agreement.

Differences from Previous Easement

This is a new easement.

Please contact Rod Lamb, extension 5858, if you have any questions or concerns.
