Galloway reported for the Climate Action and Natural Resources Committee and *moved* that the Request for Motion be APPROVED.

Donovan explained why he abstained on this item in committee.

Dana Brown-Davis, Clerk of the Council, stated she heard from Skagit County and they are thinking that the letter is supposed to be from the multiple counties and not just from Whatcom.

Councilmembers discussed the motion.

Galloway's motion that the Request for Motion be APPROVED carried by the following vote:

Aye: 6 - Buchanan, Byrd, Elenbaas, Frazey, Galloway, and Kershner

Nay: 0

Abstain: 1 - Donovan

3. AB2023-273 Request approval to send a letter regarding the Brokedown Palace timber sale

Galloway reported for the Climate Action and Natural Resources Committee and ***moved*** that the Request for Motion be APPROVED.

Elenbaas gave reasons why he opposed the letter in committee. He stated we are asking the Department of Natural Resources (DNR) to do what the law (Revised Code of Washington 36.70A.050) has already told them to do and that feels like we are interfering in the process.

Kershner spoke about the money (about \$900,000) from a timber sale that would go to the beneficiaries and stated the Council has a responsibility to consult with the schools and junior taxing districts to ensure they are not negatively impacted. She stated they should discuss how to replace this critical revenue if the Council takes action. We should wait to send this letter to find out what the Legislature is doing after they have adjourned and the County has consulted with the junior taxing districts. We should have a discussion on the vision of what we would like to send to DNR as far as how state trust lands are managed because there is State law about exactly how these lands have to be managed.

Donovan stated he would like to suggest an amendment to the first request in the letter and stated the Council is doing these letters on a sale by sale basis. He asked if they could just come up with a policy that states what they want from the DNR in terms of our county's role in having some input in these lands or our county's priorities about how these lands can be managed. He is also not sure of the timing.

Donovan moved to amend request number one on the second page of the letter to add language to the first sentence as follows:

1. Pause the Brokedown Palace Timber Sale until the current legislative session funds replacement revenues for beneficiary taxing districts in Whatcom County seeking reimbursement and until the legislature has provided guidance, authority, and funding to DNR regarding the management of mature, structurally-complex forests on state land...

The motion was seconded by Frazey.

Elenbaas stated there is no need for an amendment because the RCW lists out everything that the letter is stating.

Donovan restated his motion.

Kershner stated we should wait until the legislature is wrapped up so we know what they decide, wait and see what the permit process looks like, and allow the public to comment and then take action if necessary after those periods of time.

Galloway spoke about a recent court case on which the Supreme Court ruled and which opened up a conversation around how we are managing state forest lands, the requests included in the letter, the reasons for requesting a pause, and looking at how we can proactively be more engaging and figure out how to incorporate forest management practices into our climate solutions and not see them as two independent conversations.

Councilmembers continued to discuss the item.

Kershner moved to hold. The motion was seconded by Byrd.

Elenbaas spoke about not telling the DNR what to do when it is already outlined in the law.

Kershner asked if they need to have a date specific to hold the item and ***amended*** her motion to hold until May 9th.

Councilmembers discussed whether there is any value in holding it until DNR has an opportunity to start this project so that we know what we are asking them to pause, whether the Council wants to weigh in before the public comment to DNR, whether the Council might get into legal issues if they continue to deny these without specifying the reasons why which are laid out in the law (and whether the Council is actually denying them), whether the Council wants to water down their voice to the DNR by sending a letter for every sale, getting the letter in now so that it may have more opportunity to persuade the DNR than if the Council were reacting to an action they have already taken, and whether a conclusion could be drawn that the Council is designating resource lands on paper but functionally disallowing it.

Kershner's motion that the Request for Motion be HELD IN COMMITTEE until May 9th carried by the following vote:

Aye: 4 - Byrd, Donovan, Elenbaas, and Kershner

Nay: 3 - Buchanan, Frazey, and Galloway

Kershner's motion that the Ordinance be ADOPTED carried by the following vote:

ITEMS ADDED BY REVISION

There were no agenda items added by revision, but AB2023-155 was withdrawn by revision.

INTRODUCTION ITEMS

Kershner moved to introduce items one through twelve. The motion was seconded by Byrd.

Kershner stated she was asked to request that John Gargett, Division of Emergency Management, speak about Introduction item number two (AB2023-269) and he briefed the Councilmembers. He stated Whatcom County recently received about \$4.3 million for emergency response equipment but it has to be spent by June 30th and there is probably not enough time to be able to do that, so they will have to return the money unless they can find some way to do it. He spoke about the equipment that was on the list to purchase and answered questions.

Kershner stated the Ordinance states, “WHEREAS, the grant funds must be **obligated** by June 30, 2023” and asked whether that should say “**spent**” and Gargett stated it should.

Tyler Schroeder, Director of Administrative Services, stated technically it should be spent but for the purposes of the Ordinance and the intent of the Ordinance, which is an interfund loan from the General Fund to the Department of Emergency Management (DEM), it is okay.

Gargett answered whether there is any leeway with the Department of Commerce on getting the word “spent” changed to “obligated” and stated there is not. It is 2023 monies and they cannot carry it over into the 2024 biennium.

The speakers answered how they came up with such a precise number for the grant amount, whether we would be able to clear that whole \$4,294,850, whether they have a backup plan if they cannot get the purchase of automated sandbagging machines through because they cannot get the bid out quickly enough, and whether the sandbag machinery is technology we could purchase and own in-house.
