**EXHIBIT "A" – Amendment #1**  
**(SCOPE OF WORK)**

## **I. Background and Purpose**

The purpose of this contract is to implement a coordinated system of licensed drop-in childcare within Whatcom County. Utilizing existing licensed home-based childcare and/or childcare centers, the Contractor will create and maintain a system to match licensed childcare providers interested in offering drop-in care with low-income families in need of drop-in childcare. This contract is awarded as a result of RFP 24-26 and aligns with Strategy 5 of the Healthy Children's Fund Implementation Plan to increase access to early learning opportunities by increasing the number of child care slots across Whatcom County, prioritizing slots for underserved children.

According to the latest census<sup>1</sup>, there are approximately 10,500 children under the age of five living in Whatcom County. Of these, approximately 8,463 children need at least part-time childcare according to a recent childcare demand study conducted by Western Washington University<sup>2</sup>. According to the same report, the total current child care capacity in the County is, however, 4,436 children enrolled in 106 programs, leaving a substantial gap of over 4,000 children. Access to safe and affordable childcare is more salient among families at or below the federal poverty line. High-quality childcare and early learning programs are fundamental to promoting long-term and positive social and school readiness outcomes among children and families. They are also pivotal for participation in the workforce and local economic development.

## **II. Statement of Work**

### **A. General Program Details**

1. The Contractor will maintain and expand a system to match licensed childcare providers with low-income children in need of drop-in and/or short-term childcare.
  - a. The system will include a mechanism to get real-time availability of drop-in slots, match families in need of those slots, and compensate providers for eligible care provided to low-income children.
  - b. If there are slots unclaimed by low-income children, then slots could be available to all children on a first come, first served basis at the guardian's expense.
  - c. The provider will accept payments from private pay families directly. The system will prioritize licensed home-based childcare providers but may allow for ECEAP, Head Start, and other licensed centers to participate as well.
2. The Contractor will pay providers for dedicated drop-in slots and for temporarily available slots that are utilized. Once the provider and guardian verify that a slot was used, the provider will receive payment from the Contractor within 30 days of the receipt of invoice.
3. The Contractor will provide onboarding training to approved providers to orient them to the program, website, expectations, reimbursement, reporting, etc.
  - a. Provider slots will only become available once the onboarding training is complete.

### **B. Eligibility:**

1. The system will include a registration section for guardians and providers in order to determine eligibility for program participation.
  - a. Providers will:
    - i. Provide a copy of their current Washington State Department of Children, Youth, and Families (DCYF) childcare center or family care license.
    - ii. Propose the number of dedicated drop-in slots, including the days, hours, and age of children they intend to dedicate slots for.

    - a. The agreement will indicate that the drop-in program is for emergency situations such as job interviews, court, new foster placements, during a waiting period of up to 60 consecutive days while finding permanent childcare, provider illness, etc.
    - b. The Contractor will verify financial status once per year, in alignment with the annual financial verifications performed by Working Connections Child Care.
- c. The Contractor will:
  - i. Review eligibility paperwork from providers and guardians and send notification of application determination.
    - a. The Contractor will consider the individual situation of each guardian proposed on the eligibility paperwork to determine the emergency situation that merits program approval.
  - ii. Verify that approved providers meet all DCYF regulations including payment, medical, immunization, and emergency contact information for enrolled children.
  - iii. Maintain regular contact with providers to determine if guardians are following their rules. The Contractor will:

  - a. Following RCW.42.56.640 FCC providers addresses will not be publicly available until children are confirmed for care.
2. Working Connections, approved low-income guardians and foster families, will be given priority for open slots. 4. Every evening at 4:00 PM, the Contractor will send a reminder email to providers to notify the Contractor if there are changes to their openings for the following day, by 6:00 PM.
  - a. If the provider does not notify the Contractor, the Contractor will confirm their current openings are accurate.
  - b. Providers that have dedicated slot(s) for drop-in care will have the ability to make them unavailable when necessary.
5. The Contractor will approve and confirm open slots and update the website.

### **D. Receiving and Making Payments**

1. The Contractor will track dedicated slots that are available or unavailable and providers will receive payment for program slots, as follows:

## E. Scope Limitations

### 1. Geographic Scope

This contract funds Local Drop-In Care Services exclusively within Whatcom County. It does not authorize or fund statewide service delivery. Any proposed expansion beyond Whatcom County must be supported by clearly identified funding sources, defined full-time equivalent (FTE) allocations, and executed through a formal contract amendment.

### 2. Service Scope

This contract supports licensed drop-in child care services within Whatcom County only. The Drop-In Care Network established under this agreement is not intended to function as a universal child services referral platform or search engine.

### 3. Prohibition on Retroactive Payments

Program funds may not be used to pay past-due balances or outstanding child care invoices, including for families participating in Working Connections Child Care (WCCC) or other subsidy programs.

### 4. Time-Limited Assistance

Services funded under this program are temporary in nature. Eligible families may access drop-in care consistently, including multiple days per week. Families may use up to 60 days of care within a 12-month period, after which a break in service or reassessment is required and county approval is required for continued temporary service. The drop-in care service is not as a mechanism to pay their full-time provider if they have lost subsidy.

## F. Outreach

1. The Contractor will conduct outreach to potential providers by contacting them via phone and email, to provide information about the program and reimbursement system, and answer any questions.
2. The Contractor will conduct outreach to potential guardians through online marketing, Childcare Aware, DCYF, materials provided to and through providers, local agencies providing services to guardians, local events, and local business HR departments.

## G. Performance Benchmarks (Initial 3-Month Period)

The following benchmarks are intended to guide early implementation and better assess initial program growth. These targets serve to support continuous improvement and program development in line with the initial proposal and scope of work.
