RE: UPDATE ON ONGOING EFFORTS TO SUPPORT VULNERABLE POPULATIONS
DURING SMOKE AND HEAT SEASON

This brief update is to share with Council current efforts in place to support vulnerable populations during the summer months when excessive heat and smoke are an issue. There is currently an effort across various divisions within Whatcom Health and Community Services to address this issue with the limited resources and staffing available.

Please call (Ann Beck, 360-778-6055) if there are any questions. Thank you.
