Subject: SMAC - Request to Change Category of Representation
Date: Monday, February 19, 2024 2:08:35 PM

I am requesting that the council consider moving my representation from the Potable domestic groundwater supply to either the Forestry or Agriculture representative positions. On our 42 acre homestead in the foothills we grow/collect fruits, berries, vegetable, flowers and eggs. We provide camping. We are members of the Whatcom Forestry Farmers Association and have two tree nurseries on our property. We utilize sound environmental practices, although we are not certified organic.

This would free up the Potable domestic groundwater supply position for Carl McDaniels, who applied for the position in early 2023. There are many vacancies still available, perhaps a mass mailing to previous members of SMAC to see if they would be interested in serving another term? If you have any questions or concerns, or if there is any information I need to provide, please contact me at this email address or 360 988-8972. Thank you for your consideration.
