an employee or officer
of any business or
agency that does
business with
Whatcom County? No

You may attach a
resume or detailed
summary of
experience,
qualifications, &
interest in response to Attached

the following questions

9. Please describe your occupation (or former occupation if retired), qualifications, professional and/or community activities, and education	I am currently employed as the Director of Safety for a construction company based in Ferndale, WA. I hold an Associates Degree in Fire Science and various certifications from the Board of Certified Safety Professionals. I was previously certified as a Hazardous Waste Practitioner by the Institute of Hazardous Materials Management. I have 10 years prior experience as a career firefighter and EMT, have worked on various hazardous material emergency scenes, and have been involved in hazmat decon operations both on- and off-shore.
---	---

10. Please describe why you're interested in serving on this board or commission	As a resident of Whatcom County, I have an interest in effective and modern methods to manage hazardous and non-hazardous waste to reduce negative impact to the landscape, environment, and health and safety of members of the community. It is my belief that the more accessible and effective we can make proper disposal of waste to citizens and businesses, the more likely they are to be utilized to their maximum efficiency. Though I work in the construction industry, I am applying as a citizen as my interest is not solely in the impact of Solid Waste Management rules on industry alone.
