Lummi Island Work Group Member
With my daughter Dr. Sarah Perry (relocated from her Baylor Community Health Clinic in Eswatini, Africa during covid) we arranged for hundreds of initial covid vaccination appts for seniors who struggled with the online appt. system for covid vaccination and boosters

Question #9

As a nurse one of my most developed skills was listening. The patient was always the most important member of the team. Developing a successful plan had to start with the end user. Training to identify and triage problems and how to address them in a team work approach has served me well in work and life. Serving the public has been a privilege for my entire career.

As a 50 year island resident I have had an up close and personal relationship with the ferry system. I commuted to Western WA University, I commuted to work for 40 years. I raised my 2 children on the island and commuted to all activities. I have ridden private boats across Hale's pass during a ferry worker strike and ridden the Ferry to Bellingham during Nooksack river flood events. I have watched as our Ferry Crews and Pilots have kept us safe in all kinds of weather.

I have lived on Lummi Island through all life cycles including aging in place and now feel well equipped to understand needs of all ages and life phases of ferry users. I love my Island community and I have been proud to live and work in Whatcom County. This next few years will be bringing many complex changes as we navigate to a new ferry. I feel I bring depth of island experience, community compassion and deep respect for Whatcom County and all it has done for its residents. Whatcom County's Covid response was phenomenal!! I am ready to be part of this next phase of change for our island.
