Fire Emergencies:

During fire emergencies, the U.S. Forest Service will reimburse the County for actual costs incurred while the County is providing assistance requested by either the Agency Administrator or Incident Commander.

Reimbursement for personnel wages and services are based upon the information in the resource order and must identify the number of roadblocks, number of personnel required, hours and time frame required and must be ordered by the Incident Commander or Agency Administrator. A copy of the resource order generated for the request for assistance will be provided by the U.S. Forest Service dispatch to the County. It is critically important that the Incident Management Team, Agency Administrator, and the Sheriff/County Official agree to what emergency services are needed and listed in the Resource Order and Incident Action Plans for each day until this resource is no longer required.

Upon request of the Agency Administrator or Incident Commander, a County designated Liaison(s) to the fire incident(s) may be established. The liaison will be requested via an incident resource order. The liaison(s) primary duties, on behalf of the County Sheriff, will be to attend public meetings, planning and Incident Command meetings. Eligible costs for reimbursement will include personnel time.

If meals and lodging are required for county officials, authorization must be documented using the standard fire meals and lodging authorization forms provided by the host fire unit. Cooperator personnel directly assigned to the incident by a resource order will be entitled to meals that are provided on the incident.

Administrative support (e.g. posting incident time, delivering meals, bill preparation, etc.) will be reimbursed on an actual cost basis. The County will prepare and submit an itemized accounting of actual cost as part of the reimbursement request.

What is not eligible for reimbursement?

1. Law enforcement duties that are within the normal jurisdictional responsibilities such as enforcement, patrols, evacuation. 2. Automotive repairs, tires, and services are covered in the prevailing wage rate as identified in the OP Provision I. 8.

Billing Protocol:

Documentation required to be submitted by the County to the FS for payment processing:

- Resource Order. Resource order will state what kind of assistance is ordered, how many people requested, and the time period for the services as ordered by the IC or Agency Administrator.
- Copy of Cooperative Law Enforcement Agreement and Operating & Financial Plan.
- UEI number.

Addendum B

Statement of Work

This agreement is to ensure protection of Government property and the general safety of the public on Forest Service lands during peak periods of public use. This agreement is for Whatcom County Sheriff's Office law enforcement patrol services in the Baker Lake Recreation Area.

Objectives for Law Enforcement Patrols (LEP) in Baker Basin: Address issues that arise because of visitors attracted to the reservoir and its immediate environs because of the existence of the Baker Hydro Project.

Provide adequate law enforcement coverage during the prescribed period of time in an effort to increase the presence and visibility of law enforcement within the project area. By having a variety of law enforcement resources assigned to work the project area; the ability to actively patrol, educate, deter, and investigate violations of Federal and State laws and regulations increases the likelihood of gaining compliance from the visiting public. Additionally, with a collaborative approach to enforcement operations, coverage within the project area is sufficient to meet the needs of the LEP.

Law enforcement operations include but are not limited to handling a variety of criminal complaints, illegal drug and alcohol use, traffic violations, public health and safety issues, medical resource protection, public education and fire.

Furthermore, the collaborative efforts will address the increased visitation and attendant effects of sockeye season to include:

1. Traffic, parking
2. Boater/camper use and timing conflicts
3. Crowding and safety on and off the water
4. Emergencies, especially on the east side and on the water, which may be time sensitive.
5. Resource impacts - general use and misuse of developed and dispersed facilities
6. Boats anchoring in the lake in the dark w/o lights.
7. Boaters travelling to fast.
8. Boats not using the correct ramp for their size. i.e. only Kulshan and Swift Creek are appropriate for large boats and trailers.
9. Boats coming from a wide area: invasive species inspections and education
10. Trash, human waste, bear, and wildlife management
11. Violations of state boating and fishing regulations
12. Enforcement of delineated no-wake zones, swim areas, loon platforms
