Hello,

We would like to formally request an extension of permit MPP 2024-00001-COB Mitigation Bank. In accordance with Recommended Conditions of Approval No. 11 in the associated staff report, a complete Mitigation Banking Instrument (MBI) is required within two years of the original permit approval date of July 9, 2024. While preparation of the MBI is currently in its final stages of review and approval, it is not anticipated that the documentation will be fully executed by the two-year deadline. Accordingly, we request an extension of the approved MPP to allow sufficient time to submit the signed MBI.

Please let me know if you need any additional information to support this request.

Thanks very much!

Please note, I am typically in the office Monday to Thursday, out of the office on Fridays.
