Task Title: Education and Outreach

Task Description:

2.1 Community education and outreach: The MRC will attend at least three community and outreach events with their display and interactive tools to provide a forum for the exchange of marine resource issues information, develop community curiosity and concern about marine issues, and help develop the community's stewardship ethic through continued education and exposure to marine resource issues. Information about current MRC projects will be provided as well as general MRC program brochures.

2.2 Public speaker series: Whatcom MRC will partner with the Whatcom Watershed Information Network (WWIN) to plan and implement a Public Speaker Series that will contribute to informing citizens about marine resources and issues specifically. Speaker Series events will range from a single evening speaker to multi-day symposiums. Whatcom MRC will host at least four speaker series events and help plan and promote other speaker series events. Evaluations will be provided at each event in order to learn how attendees are hearing about the event, if they felt their knowledge on the speaker topic increased after the presentation, and suggestions for future topics.

2.3 North Sound Stewards: Whatcom MRC will implement a volunteer program, in partnership with RE Sources for Sustainable Communities, supporting volunteer citizen scientists who contribute to scientific research for the health of the Salish Sea. Whatcom MRC will secure an intern to serve as the North Sound Stewards Volunteer Program Coordinator who will be responsible for planning, promoting, and implementing the volunteer training program, recruiting volunteers, connecting volunteers to volunteer opportunities, and continued volunteer communications and engagement under the guidance of MRC Staff and the North Sound Stewards Advisory Committee, which includes representatives from RE Sources and the Whatcom MRC.

Task Goal Statement:

2.1 Community education and outreach: increase public awareness and recognition of the MRC, MRC projects, marine resources in Whatcom County, and provide another way for the MRC to identify future volunteers and MRC members.

2.2 Public speaker series: to utilize partnerships in order to provide and exchange information on marine related topics to the MRC and the broader local community.

2.3 North Sound Stewards: increase public awareness of the issues impacting the Salish Sea and its inhabitants, foster stewardship, and build, engage, and support a strong volunteer base of citizen scientists to support the Whatcom MRC, partner organizations, and increase the visibility of the Whatcom MRC.

Task Expected Outcome:

2.1 Community education and outreach: The MRC will communicate with at least 250 community members about local marine resource issues and will track the number of fact sheets, MRC brochures, and crabber outreach information distributed at events, and at least 20 visitors to the MRC table will sign up to receive MRC information or volunteer for MRC projects.

Agreement No: SEANWS-2019-WhCoPW-00001
 Project Title: Whatcom Marine Resources Committee (MRC) Operations and Projects
 Recipient Name: Whatcom County

2.2 Public speaker series: Local leaders and community members will be better informed on marine topics after attending events.

2.3 North Sound Stewards: Workstudy internship will be completed; the number of new and active volunteer participants in the program increases and the MRC will offer three trainings to participants in addition to other learning opportunities.

SCOPE OF WORK

Task Number: 3 **Task Cost: \$14,475.00**

Task Title: Monitoring

Task Description:

3.1 Chuckanut Pollution Identification and Correction (PIC): Following the monitoring protocols outlined in the North Chuckanut Bay PIC Water Quality Monitoring: Fecal Coliform Quality Assurance Project Plan, Whatcom MRC will complete bi-weekly sampling of seven freshwater sites and six marine sites from October 2019 through September 2020 in North Chuckanut Bay. Monthly sampling will occur if bi-weekly is not possible due to weather, or field staff capacity. Monitoring efforts will continue under the recommendation of Washington State Department of Health based on patterns of water quality results. Whatcom MRC will continue ongoing community outreach and engagement on best management practices for healthy water quality, and will recruit community volunteers to help with sampling. The MRC will distribute one community newsletter to residents in the Chuckanut Village with water quality information and additional ways to be informed about the PIC project.

3.2 Bull kelp monitoring: Working in collaboration with the Northwest Straits Commission, using existing kayak-based monitoring protocols and a motorized boat-based variation, the Whatcom MRC will monitor floating bull kelp beds at four locations in Whatcom County to provide information on the status (presence, size, and health) of floating kelp communities in Whatcom County: SW Lummi Island, Aiston Preserve, Cherry Point/Gulf Rd, and Alden Bank. The MRC will explore the use of a motorized boat to survey at Alden Bank due to the strength of the currents at that location. The MRC will begin efforts to complete a presence/absence survey of kelp along the Whatcom County shoreline, to be completed by motorized boat.

3.3 Forage fish spawning surveys: Using existing protocols developed by WA Dept of Fish and Wildlife, Whatcom MRC will participate in a regional effort to characterize populations of the two species of forage fish that spawn on Puget Sound beaches: Pacific sand lance and surf smelt. Whatcom MRC will recruit and train volunteers and hire a student intern to conduct spawning surveys at two priority beaches monthly using existing protocols, and will conduct forage fish egg presence/absence analysis from beach substrate samples.

3.4 Olympia oyster monitoring: Whatcom MRC is continuing a pilot project to establish a self-sustaining population of Olympia oyster while enhancing habitat complexity and diversity in N. Chuckanut Bay. Following the pilot planting of approximately 95,000 oysters in test plots in May 2018, Whatcom MRC will follow a monitoring plan to collect physical and biological parameter data to determine the status of restoration potential and assess needs for adaptive changes following restoration actions. A spring monitoring event will involve students from local college/universities. The MRC will develop an evaluation of oyster retention within pilot restoration plots, and changes in habitat characterization will be determined by assessing changes in restoration plots against an identified reference plot.

Task Goal Statement:

3.1 Chuckanut Pollution Identification and Correction: Provide WA State Dept of Health with sufficient data that demonstrates improvement in water quality, to encourage them to appropriately modify the recreational shellfish harvesting restrictions, and to continue outreach and engagement with the Chuckanut Village community so that observed water quality improvements are maintained.

3.2 Bull kelp monitoring: Support a larger regional kelp monitoring program and provide a better understanding of kelp

distribution, bed sizes, kelp speciation, and bull kelp health within the Salish Sea.

3.3 Forage fish spawning surveys: Support state wide sampling and to inform potential soft shore restoration projects for Whatcom County.

3.4 Olympia oyster monitoring: Involve local community members in monitoring the seven test plots to quantify ecological parameters, evaluate restoration success, and facilitate adaptive management practices, in order to inform restoration potential. The long-term goal is to re-establish a native Olympia oyster population in N. Chuckanut Bay.

Task Expected Outcome:

3.1 Chuckanut Pollution Identification and Correction: Water quality monitoring will be completed and the MRC will meet with Washington Department of Health to discuss their evaluation of current water quality status and next steps toward lifting the shellfish harvesting restriction.

3.2 Bull kelp monitoring: Completion of at least one kelp survey at four locations in Whatcom County.

3.3 Forage fish spawning surveys: A student intern to assist with recruiting and training volunteers, conducting surveys, and processing the samples on a monthly basis, and at least five volunteers will participate in monthly surveys.

3.4 Olympia oyster monitoring: Monitoring completed to assess oyster abundance, to provide information on population recruitment; and the live oyster size distribution.

1. INTRODUCTION

This contains provisions that are not listed on OMB Standard Form 424B (Rev 4-2012). These provisions apply only to sub-recipients.

2. AUDIT REQUIREMENTS

Recipient shall meet the provisions in Office of Management and Budget (OMB) Guidance, Subpart F, §200.501 (Audit Requirements), if the RECIPIENT expends \$750,000 or more in total Federal funds in a fiscal year. The \$750,000 threshold for each year is a cumulative total of all federal funding from all sources. The RECIPIENT shall forward a copy of the audit along with the RECIPIENT'S response and the final corrective action plan to AGENCY within ninety (90) days of the date of the audit report. For complete information on how to accomplish the single audit submissions, visit the Federal Audit Clearinghouse Web site: <http://harvester.census.gov/facweb/>

3. COST PRINCIPLES/INDIRECT COSTS FOR STATE AGENCIES

Agreement No: SEANWS-2019-WhCoPW-00001
Project Title: Whatcom Marine Resources Committee (MRC) Operations and Projects
Recipient Name: Whatcom County

RECIPIENT agrees to comply with the cost principles of 2 CFR 200 Subpart E as appropriate to the award. If the recipient does not have a previously established indirect cost rate, it agrees to prepare and submit its indirect cost rate proposal in accordance with 2 CFR 200 Appendix VII.

4. CIVIL RIGHTS OBLIGATIONS

This term and condition incorporates by reference the signed assurance provided by the recipient's authorized representative on Standard Form 424B. These assurances and this term and condition obligate the recipient to comply fully with applicable civil rights statutes and implementing EPA regulations.

5. NON DISCRIMINATION AND DISADVANTAGED, MBE, WBE BUSINESS ENTERPRISES ADDITIONAL REQUIREMENTS

RECIPIENT agrees to comply with the requirements of EPA's Program for Utilization of Small, Minority, and Women's Business Enterprises in procurement, contained in 40 CFR, Part 33. RECIPIENT shall include the following provision in all subcontracts involving use of federal funds:

In accordance with 40 CFR 33.106 and its Appendix A, the RECIPIENT shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The RECIPIENT administration shall carry out applicable requirements of 40 CFR part 33 in the award of contracts awarded under EPA financial assistance agreements. Failure by the RECIPIENT to carry out these requirements is a material breach of this contract which may result in the termination of this contract or other legally available remedies.

6. DRUG FREE WORKPLACE

RECIPIENT shall make an ongoing, good faith effort to maintain a drug-free workplace pursuant to the specific requirements set forth in Title 2 CFR Part 1536 Subpart B. Additionally, in accordance with these regulations, the recipient organization shall identify all known workplaces under its federal award and keep this information on file during the performance of the award. RECIPIENTS who are individuals must comply with the drug-free provisions set forth in Title 2 CFR Part 1536 Subpart C. The consequences for violating this condition are detailed under Title 2 CFR Part 1536 Subpart E. Recipient can access the Code of Federal Regulations (CFR) Title 2 Part 1536 at: <http://ecfr.gpoaccess.gov>.

7. INTERNATIONAL TRAVEL (Including Canada)

All International Travel must be approved by the Office of International and Tribal Affairs (OITA) BEFORE travel occurs. Even a brief trip to a foreign country, for example to attend a conference, requires OITA approval. Please contact your Ecology project manager as soon as possible if travel is planned out of the country, including Canada and/or Mexico, so that they can submit a request to the EPA Project Officer if they approve of such travel.

8. LEP (Limited English Proficiency) Title VI

As a recipient of EPA financial assistance, you are required by Title VI of the Civil Rights Act to provide meaningful access to LEP individuals. In implementing that requirement, the recipient agrees to use as a guide the Office of Civil Rights (OCR) document entitled "Guidance to Environmental Protection Agency Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons." The guidance can be found at http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=2004_register&docid=fr25jn04-79.pdf.

In accepting this contract, the recipient acknowledges it has an affirmative obligation to implement effective Title VI compliance programs and ensure that its actions do not involve discriminatory treatment and do not have discriminatory effects even when facially neutral. The recipient must be prepared to demonstrate to EPA/PSP that such compliance programs exist and are being implemented or to otherwise demonstrate how it is meeting its Title VI obligations. For example, if RECIPIENT's responsibilities under this contract include gathering public input on an environmental issue, RECIPIENT's communication with

Agreement No: SEANWS-2019-WhCoPW-00001
Project Title: Whatcom Marine Resources Committee (MRC) Operations and Projects

the public should attempt to minimize barriers that interfere with the ability of LEP persons to meaningfully participate.

9. MANAGEMENT FEES

Management fees or similar charges in excess of the direct costs and approved indirect rates are not allowable. The term “management fees or similar charges” refers to expenses added to the direct costs in order to accumulate and reserve funds for ongoing business expenses, unforeseen liabilities, or for other similar costs which are not allowable under this CONTRACT. Management fees or similar charges may not be used to improve or expand the project funded under this Agreement, except to the extent authorized as a direct cost of carrying out the scope of work.

10. PEER REVIEW

The results of this project may affect management decisions relating to Puget Sound. Prior to finalizing any significant technical products the Principal Investigator (PI) of this project must solicit advice, review, and feedback from a technical review or advisory group consisting of relevant subject matter specialists. A record of comments and a brief description of how respective comments are addressed by the PI will be provided to the Project Monitor prior to releasing any final reports or products resulting from the funded study.

11. REIMBURSEMENT LIMITATION

If RECIPIENT expends more than the amount of the Environmental Protection Agency (EPA) funding in this agreement in anticipation of receiving additional funds from EPA, it does so at its own risk. EPA is not legally obligated to reimburse PSP, nor its sub-recipients, for costs incurred in excess of the EPA approved budget.

12. SIX GOOD FAITH EFFORTS, 40 CFR, PART 33, SUBPART C

Pursuant to 40 CFR, Section 33.301, the recipient agrees to make the following good faith efforts whenever procuring construction, equipment, service and supplies under an EPA financial assistance agreement, and to require that sub-recipients, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

- a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local Government recipients, this will include placing DBEs on solicitation lists and soliciting whenever they are potential sources.
- b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation b DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.
- c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local Government recipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.
- d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.
- e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.
- f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraph (a) through (e) of this section.

13. SUB-AWARDS

If RECIPIENT makes sub-awards under this contract, RECIPIENT is responsible for selecting its sub-awardees and, if applicable, for conducting sub-award competitions. RECIPIENT agrees to:

- a. Establish all sub-award agreements in writing;
- b. Maintain primary responsibility for ensuring successful completion of the approved project (Sub-Recipient cannot delegate or transfer this responsibility to a sub-awardee);
- c. Ensure that any sub-awards comply with the standards in Section 210(a)-(d) of OMB Circular A-133, and are not used to acquire commercial goods or services for the sub-awardee;
- d. Ensure that any sub-awards to 501(c)(4) organizations do not involve lobbying activities;
- e. Monitor the performance of sub-awardees, and ensure sub-awardees comply with all applicable regulations, statutes, and terms and conditions which flow down in the sub-award;
- f. Obtain AGENCY's consent before making a sub-award to a foreign or international organization, or a sub-award to be performed in a foreign country; and
- g. Obtain approval from AGENCY for any new sub-award work that is not outlined in the approved work plan in accordance with 40 CFR Parts 30.25 and 31.30, as applicable.

14. TRAFFICKING IN PERSONS AND TRAFFICKING VICTIM PROTECTION ACT OF 2000 (TVPA) AS AMENDED IN 22 U.S.C. 7104(g)

This provision applies only to a sub-recipient, and all sub-awardees of sub-recipient, if any. Sub-Recipient shall include the following statement in all sub-awards made to any private entity under this Agreement.

"You as the sub-recipient, your employees, sub-awardees under this award, and sub-awardees' employees may not engage in severe forms of trafficking in persons during the period of time that the award is in effect; procure a commercial sex act during the period of time that the award is in effect; or use forced labor in the performance of the award or sub-awards under this Award."

Sub-recipient, and all sub-awardees of sub-recipient must inform AGENCY immediately of any information you receive from any source alleging a violation of this prohibition during the award term.

Federal agency funding this agreement may unilaterally terminate, without penalty, the funding award if this prohibition is violated, Section 106 of the Trafficking Victims Protection Act of 2000, as amended.

15. UNLIQUIDATED OBLIGATIONS (ULO)

Recipients, sub-recipients, and all sub-awardees of sub-recipients, if any, should manage their agreement and subaward funding in ways that reduce the length of time that federal funds obligated and committed to subaward projects are unspent (not yet drawn down through disbursements to sub-recipients and sub-awardees).

24. SEVERABILITY

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

25. STATE ENVIRONMENTAL POLICY ACT (SEPA)

RECIPIENT must demonstrate to ECOLOGY's satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

28. TERMINATION

a) For Cause

ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience

ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT, except as noted below. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY's ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the agreement and any amendments. If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

c) By Mutual Agreement

Agreement No: SEANWS-2019-WhCoPW-00001
Project Title: Whatcom Marine Resources Committee (MRC) Operations and Projects
Recipient Name: Whatcom County

ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination

All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

29. THIRD PARTY BENEFICIARY

RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

30. WAIVER

Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.
