WHATCOM COUNTY  
COUNCIL

To my honorable council members,  
upon learning of the proposed ordinance a few days ago I have been motivated to research information about the organization and individuals proposing it.

Todd Walton -

has a previously listed corporate entity under ~~his~~ his ownership that has no real physical address.

Centerline Solutions, is out of business in Colorado. ~~to~~ They are currently delinquent with their WA State Secretary of State filings.

In Addition, Section D of the proposed ordinance basically says that the mesh network will be under the authority of the police?

please verify the credentials and legal authority of this individual or company to do this business.

Thanks,

A Citizen
