

**Economic Development Investment Program
Interlocal Loan and Grant Agreement
City of Blaine – G Street Sewer Improvements Project**

I PARTIES

This Agreement is made by and between **Whatcom County** (hereinafter referred to as **the County**), and City of Blaine (hereinafter referred to as **the City**).

II TERM

This Agreement takes effect upon execution hereof by the authorized representatives of both parties and continues in effect until all payments required under Section V, MUTUAL CONSIDERATION, Subsection C, REPAYMENT OF COUNTY LOAN, have been made or until terminated as provided for in Section VIII, TERMINATION.

III PURPOSE

The purpose of this Agreement is to provide funding support for the G Street Sewer Improvements Project (hereinafter referred to as **the Project**) using certain County funds designated for such infrastructure development. These funds will be used to complete the Project as outlined in the Economic Development Investment (EDI) Program Application as attached (Attachment B).

IV RECITALS

The Parties make this Agreement based on and in recognition of certain relevant facts and circumstances including:

A. Sales and use taxes are collected in and for the County under authority of RCW 82.14.370 and Whatcom County Code 2.130 for the purpose of financing public facilities in the County, and the proceeds are deposited in the Whatcom County Public Utilities Improvement Fund.

B. The **City of Blaine** will construct the Project. The Project will be partially funded by a **\$625,000 loan from the Whatcom County Public Utilities Improvement Fund, a \$1,875,000 grant from the Whatcom County Public Utilities Improvement Fund**, and the balance of the Project will be funded by the City of Blaine, Department of Commerce (State Grant) and other sources, as outlined in Exhibit B. The Project improvements, when complete, will be owned and maintained by **City of Blaine**.

C. RCW 82.14.370 was adopted to serve the goals of promoting the ongoing operation of business in rural distressed areas, promoting the expansion of existing businesses in rural distressed areas, attracting and developing new businesses, and providing family wage jobs and the development of communities of excellence in such areas. The parties expect the Project to further these goals.

D. RCW 82.14.370 defines public facilities to include bridges, roads, domestic and industrial water facilities, sanitary sewer facilities, earth stabilization, storm sewer facilities, railroad, electricity, natural gas, buildings, structures, telecommunications infrastructure, transportation infrastructure, or commercial infrastructure, and facilities in the state of Washington.

E. The County has created the EDI Board to review applications for loans and grants from the Public Utilities Improvement Fund and to make recommendations for Public Utilities Improvement Fund investments based on commitment of other funds, potential for resulting job creation, and other factors.

F. The EDI Board has reviewed the application for Public Utilities Improvement Funds and has recommended approval to the Whatcom County Council.

G. The County EDI Board has reviewed and recommended this project application be approved with a recommendation of a loan in the amount of \$625,000 and a grant in the amount of \$1,875,000, for a total of \$2,500,000. A copy of the EDI application for this project is attached by reference to this Agreement (Attachment B).

H. The Whatcom County Council reviewed the recommendation and approved a loan to the **City of Blaine** from the Public Utilities Improvement Fund in the amount of \$625,000, and a grant to the **City of Blaine** from the Public Utilities Improvement Fund in the amount of \$1,875,000.

I. The Public Utilities Improvement Fund balance is sufficient to make the requested loan and grant to the Project.

J. RCW 39.34 authorizes interlocal agreements whereby municipal governments may jointly exercise the powers granted to each.

V MUTUAL CONSIDERATION

The parties do not intend to create any new or separate legal or administrative entity by this Agreement but intend for this mutual Agreement to govern the County's financial support for the Project. The terms and conditions contained herein reflect the voluntary participation of the parties.

- (iii) The **City of Blaine** shall be responsible for all aspects of the public works construction contract administration, which shall include, but not be limited to, advertising, bidding, and awarding the contract. The **City of Blaine** will comply with all applicable laws, rules and regulations relating to bidding the project. The County shall have no responsibility for the Project other than the funding set forth herein.
- (iv) The **City of Blaine** shall provide the County with a final report showing the actual cost of the project and the actual sources and uses of funding for the project.
- (v) The **City of Blaine** shall repay the loan in full in accordance with the terms of Section C below and the amortization schedule set forth in Attachment A, attached hereto.

B. WHATCOM COUNTY'S RESPONSIBILITIES: The County hereby agrees as follows:

- (i) COUNTY LOAN—The County shall *loan* Six Hundred Twenty Five Thousand Dollars and Zero Cents (\$625,000) for the Project described herein (the "Loan"). The Loan shall be paid in accordance with Exhibit B.
- (ii) COUNTY GRANT—The County shall issue a grant to the City of Blaine for up to One Million Eight Hundred Seventy-five Thousand Dollars and Zero Cents (\$1,875,000) for the Project described herein. Disbursements of grant funding shall be made contingent upon and subject to the continued commitment of the other project funding sources. This amount shall be paid in accordance with Exhibit B.
- (iii) Unless the parties to this agreement mutually agree in writing to modify the consideration, the funding identified herein is all the County is obligated to pay towards this project. - (iii) Failure to make the payment in the required amount by the date it is due according to the amortization schedule hereto attached shall constitute an event of default by the **City of Blaine**. In the event that the **City of Blaine** fails timely to make a Loan payment hereunder, the County shall notify the **City of Blaine** of the failure and the **City of Blaine** shall have fourteen (14) days to cure its failure. At the option of the County, such an event of default and the **City of Blaine's** failure to cure within the stated time period is a sufficient basis upon which the County may take action to collect the amount that is delinquent, and if the County takes action to collect pursuant to this provision, the **City of Blaine** shall pay to the County not only the amount owing, but also any collection of reasonable costs incurred by the County. Furthermore, if the **City of Blaine** fails to make a payment on the Loan within thirty (30) days of the date it is due, and if the County has provided the **City of Blaine** with the notice provided for in this section, then the County may choose to declare the remaining balance of the loan due and owing.
- (iv) There is no prepayment penalty should the **City of Blaine** desire to retire this debt early, either in whole or in part.

VII RELATIONSHIP OF PARTIES AND AGENTS

Neither the **City of Blaine** nor the County shall have authority to execute contracts or to make commitments on behalf of the other, and nothing contained herein shall be deemed to create the relationship of employer and employee or principal and agent between the County and the **City of Blaine**. This agreement does not create,

either implicitly or explicitly, any right, duty or obligation that is not expressly provided for herein.

The **City of Blaine** represents that it has or will secure at its own expense all personnel, contractors, and/or subcontractors required in order to perform the Project work. ATTACHMENT B Funding Application

City of Blaine – G-Street Sewer Improvements Project Economic Development Investment (EDI) Program Application

Blaine Sewer Rehabilitation Project Funding Request: \$2,500,000

Request: The City of Blaine requests \$2.5 million to rehabilitate and upgrade the existing sewer conveyance system. The work will include repairing existing sewer lines and adding a new line to alleviate flow restrictions in 90-year old lines. This work will be undertaken in an area on the east side of the City and Interstate 5. The repaired areas will aid in accepting increased demands from the continuing residential construction in the East Blaine area. The total cost of this project will be approximately \$7.5 million, of which the City of Blaine is requesting a \$2.5 million portion (\$1.875 million in EDI grant funding and \$625,000 in EDI loan funding).

Issue: Existing sewer pipes have settled due to changing soil conditions around the pipe beds causing slumping. Pipes are cracked and crumbling in some locations. The degraded system is leading to liquid blockages and debris stopping normal gravity flow toward the wastewater treatment facility. The various segments with these conditions have led to a few manholes collecting wastewater and percolating through their covers into the streets during extreme flow events. The existing conveyance infrastructure of pipes, manholes, and lift stations is the main route for wastewater movement from the City's east side residential area and industrial and manufacturing areas.

Solution: The City is coordinating to reconstruct part of the existing wastewater infrastructure and to add a new bypass line. This is being done in order to alleviate existing problems and to ensure adequate future capacity. Under the proposed project, 1,550 feet of new 18-inch wastewater main will be installed at the head end for the sewer to accept the mass flows that will result once the East Blaine development extensions are operational. In addition, over 1,700 feet of existing wastewater mains will be rehabilitated including rebuilding up to five manholes to manage existing flows and augment future capacity.
