Subject: Whatcom County Health Department Recommendation for the Food System Committee

The Whatcom County Health Department recommends Paul Burrill for the Fishing Industry position on the Food System Committee. Paul has over 30 years of experience in the fishing industry and owns a couple of businesses in the industry.

As we are in the final stages of developing our food system plan, it is imperative that we include a fishing industry representative in the process. Paul will be a good addition to the existing committee.

Please let me know if you have any questions.
