Subject: RE: code update questions

Hi Joni,

I got an answer on one of the ordinances.

2. Ord. 2017-080 adds Ch. 2.126, which we've codified. It also, in the second ordaining clause, sets a goal of 100% renewable energy use. We did not codify this paragraph; please let us know if we should.

The answer is no for the second ordaining clause paragraph.

I am still following up on the second ordinance. I'll let you know as soon as I get an answer.

Kristi

Good morning, Kristi,

I just wanted to follow up on the questions from last week. We need to confirm where to place Ord. 2017-076, and to make sure we handled Ord. 2017-080 correctly.

I hope that you enjoyed your time off!

Thanks again, and have a good day today,

Hi Kristi,

Ok, no problem. Let me just confirm where we should codify it, though. Would it make sense to place it at WCC 20.80.637 (this would follow 20.80.635, Stormwater special districts)? Or should it go somewhere else?

Also, I am assuming we'd just codify that one paragraph in the ordaining clause, and not the boundary legal description or map in Exhibit A. But if that's incorrect, please let me know.
