

Michael Bratt, P.E.

CIVIL ENGINEER

FREELAND
& ASSOCIATES
CIVIL ENGINEERS

Michael Bratt is an Associate and Partner of Freeland & Associates, Inc. Michael Bratt works on all aspects of his projects including designs for stormwater management, water and sewer systems, erosion, and site grading. He drafts and prepares plans, writes reports, prepares project specifications, and helps secure permits. Michael has an unbridled intellectual curiosity that inspires him to read extensively on all things technical. He's driven to learn how and why things work the way they do. This broad base of knowledge helps him tackle any work-related challenges that come his way. He believes his company should be a trusted partner for clients, community stakeholders, and officials of the city and county, and makes it a priority to get to know the people he's working with, and for. With stormwater management standards changing every few years, it's vital to foster a spirit of teamwork with local officials.
