Birch Bay Lynden Road/California Creek Culvert Replacement CRP #923XXX

Construction Funding Year(s):

TBD

Project Narrative:

This project is located near the Birch Bay community near S21&28, T40N, R1E. The existing culvert failed and washed out the roadway during the November 2021 storm events. Temporary culverts were installed under emergency conditions to restore essential traffic while a permanent solution is developed. The temporary and permanent repairs qualify for federal Emergency Relief (ER) grant funding.

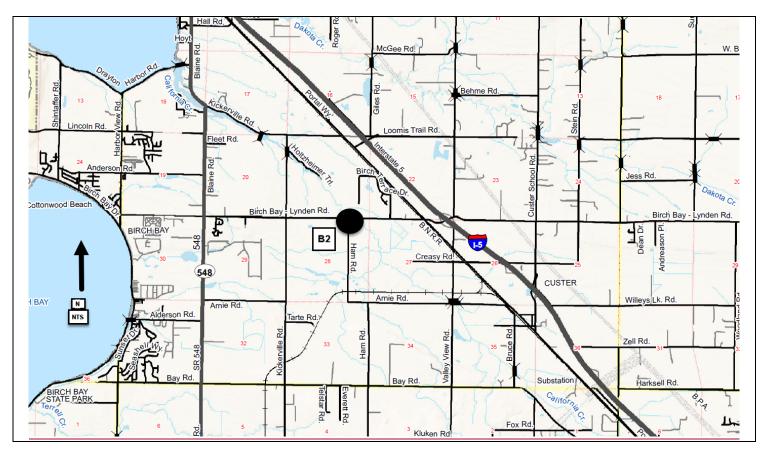

The project is listed **#B2** on the 2023-2028 Six Year Transportation Improvement Program.

Project Status:

Temporary culverts were installed following the road failure to restore essential traffic. Preliminary design and permitting for the permanent repair is planned to begin in 2023.

North Fork Road/Kenney Creek Fish Passage CRP # 919007 (Project Based Budget 391100)

Construction Funding Year(s):

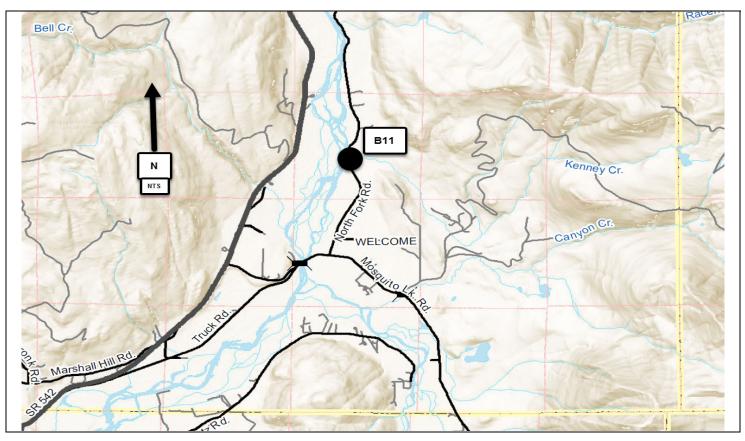

2023

Project Narrative: The existing 5-foot diameter corrugated steel culvert which carries Kenny Creek under the North Fork Road has been identified as a barrier to fish passage and, considering habitat to be gained, is considered one of the highest priority barriers within the County road system. Washington State Fish Barrier Removal Board (FBRB) funding has been secured for the design and construction phases of this fish passage project. This culvert will be replaced with a 110-ft prestressed concrete girder bridge. This project is listed as **#B11** on the 2023-2028 Six-Year Transportation Improvement Program.

Project Status: Project design, permitting and real estate began in 2019. Design work was completed in late 2021, with right of way acquisition and environmental permitting completed in late 2022. Whatcom County has been awarded \$443,000 of FBRB funds for the design phase of this project and in the summer of 2021 Whatcom County was awarded \$2,975,000 in FBRB funds for the construction phase of this project. Construction of this project is scheduled for 2023.

Truck Road Flood Damage Repair CRP 921003

Construction Funding Year(s):

2023

Project Narrative:

This project is located in Sections 6 & 7, T37N, R5E. The project is listed **#R20** on the 2023-2028 Six-Year Transportation Improvement Program. During high-water events of the 2017/2018 winter, the North Fork Nooksack River eroded the unprotected bank of Truck Road to within 13 feet of the roadway surface. This prompted an emergency project to construct a passive riprap revetment underneath a section of the roadway to provide immediate protection. Flooding during 2020 eroded the remaining bank exposing the recently constructed riprap revetment and destabilizing a portion of the north bound lane. Jersey barriers were placed by county crews to block off this lane to traffic. The FCZD is evaluating road realignment and bank stabilization alternatives to provide a long-term solution in this area.

Project Status: Construction of the road setback is anticipated to occur in 2023. The FCZD is seeking FEMA funds to partially fund the project. Project costs listed are for design only, with the 6-Yr TIP costs supporting only a portion of the unfunded design effort.

Abbott Road/Levee Improvements CRP # 919002

Construction Funding Year(s):

TBD

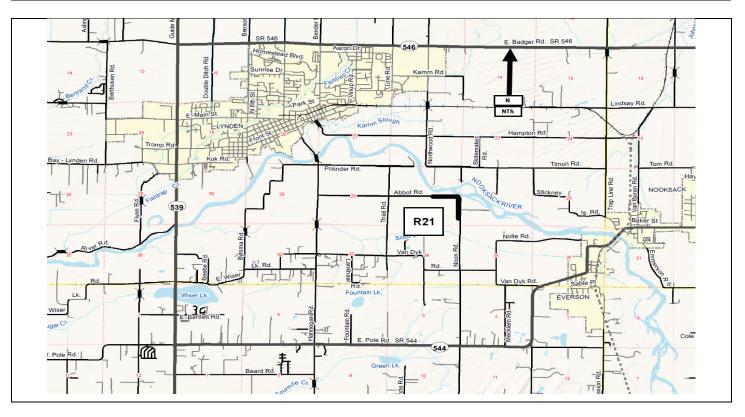

Project Narrative:

This project is located in Section 27, T40N, R3E. This project proposes to stabilize an approximately 600-LF section of the left bank of the Nooksack River adjacent to Abbott Road and to extend the upstream end of the Abbott Levee and realigned it to run under Abbott Road. This project is listed **#R21** on the 2023-2028 Six-Year Transportation Improvement Program.

Project Status: The project managed by the River and Flood section and is currently in the preliminary engineering design phase. The FCZD has contracted with an engineering consultant to design measures to help arrest the ongoing erosion. The reach assessment will also provide the technical basis for developing alternatives for upstream improvements as Phase 2.
