Chapter 1 – Introduction

The Growth Management Act requires that the County's Comprehensive Plan include a "capital facilities plan element" (RCW 36.70A.070(3)). The Whatcom County Comprehensive Plan calls for the County to develop and update the Six-Year Capital Improvement Program (CIP) for County projects every two years. The main purpose of the Capital Improvement Program is to identify priority capital improvement projects and estimated costs, outline a schedule for project completion, and designate funding sources for these projects based on a review of existing and projected population and revenue conditions for the six year planning period.

Growth Management Act Requirements

According to the Growth Management Act, a county's capital facilities plan must include five items, which are shown below.

A. An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities.

Current inventories of existing County capital facilities, based upon information provided by various County departments, are included in each chapter of this document.

B. A forecast of the future needs for such capital facilities.

Chapter 4 of the Whatcom County Comprehensive Plan establishes numerical "level of service" standards for County parks and trails and contains policies relating to other County facilities. Capital facility needs are forecasted over the six-year planning period by applying the adopted level of service standards to the expected population in the year 2028 and by considering other relevant factors.

C. Proposed locations and capacities of expanded or new capital facilities.

General locations and capacities of proposed County facilities are indicated in this document (as applicable).

D. At least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes.

This Six-Year Capital Improvement Program presents costs and funding sources for proposed County capital facilities (all figures are in 2022 dollars). There are a variety of funding sources that the County may utilize to pay for capital facilities, including real estate excise taxes (REET), sales tax, the Public Utilities Improvement Fund (also known as the Rural Sales Tax Fund, Economic Development Investment Fund or EDI Fund), Road Fund, state grants, federal grants and a variety of other sources.

E. A requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent.

Finally, in accordance with the Growth Management Act, a requirement to reassess the land use element of the Comprehensive Plan if probable funding falls short of meeting existing needs and to ensure consistency between plans already exists in the Comprehensive Plan (Policy 4A-4).

Charter Provisions and the County Budget

In addition to Growth Management Act provisions relating to capital facilities, Section 6.30 of the County Charter also requires the County to include a six-year capital improvement program as part of the budget. Appropriations for 2023-2024 capital projects may be included in the biennial budget or may be adopted through the supplemental budget process. Ultimate funding for capital improvement projects is subject to County Council authorization in the adopted budget. Costs identified for 2025-2028 are included for planning purposes and review of potential future needs, but not for budget authorization at this time.

Chapter 2 - Parks, Trails, and Activity Centers

Parks

The 2022 inventory of County parks and open space areas is over 16,200 acres. This inventory is shown in Table 1 below.

Pursuant to RCW 36.87.130, there are also public access properties on right-of-way ends that intersect shorelines. Whatcom County also holds public access easements for recreational purposes on certain lands owned by the City of Lynden, Whatcom Land Trust and the Lummi Island Heritage Trust.

Future Needs

A level of service of 9.6 acres of developed parkland for every 1,000 people in the County was adopted in the Whatcom County Comprehensive Plan. The County's existing parks will meet the adopted level of service over the six-year planning period. However, the County is proposing park improvement projects to increase quality of existing park facilities and develop the Birch Bay Community Park to meet the longer term needs of a growing population.

Proposed Improvement Projects

Park improvement projects, totaling approximately \$16.8 million, are proposed over the six-year planning period (see Table 4). Prioritize funding for restroom facilities at the Birch Bay Beach Park.

Trails

Whatcom County currently has over 75 miles of trails in various locations throughout the County. This inventory is shown in Table 2 below.

Table 2. Existing Trails

25	Teddy Bear Cove	0.33
	TOTAL	75.32

Future Needs

A level of service of 0.60 miles of trails for every 1,000 people in the County was adopted in the Whatcom County Comprehensive Plan. With projected population growth in Whatcom County over the next six years, about 74 additional miles of trails would be needed by the year 2028 to serve the people of Whatcom County.

Proposed Improvement Projects

Trail improvement projects and associated facilities, totaling approximately \$7.4 million dollars, are proposed over the six-year planning period (see Table 4). These projects would add up to 25.6 trail miles (the South Fork Park trails project would add 5.5 miles, the Lake Whatcom trails project would add up to 20 miles, and a Silver Lake project would add 0.15 miles).

While there is a shortfall in trail miles provided by the County, there are other trails that are owned/maintained by a variety of agencies or jurisdictions that provide recreational opportunities for Whatcom County residents and visitors.

Activity Centers

There are currently 13 activity centers that provide a variety of year-round programs for various age groups. The activity center inventory is shown in Table 3 below.

Note: The Blaine, Everson, Lynden and Sumas Centers are owned by these respective cities. The Point Roberts Center is owned by the Point Roberts Park District. Whatcom County provides and/or contracts for senior activities and recreational programming at these centers.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for activity centers. Rather, Comprehensive Plan Policy 4F-5 states:

Continue to provide and support activity centers, including senior centers, to serve the growing population of Whatcom County by the following methods, as needed, which are listed in priority order: (1) implementing programming changes, (2) adding space to existing centers, and/or (3) establishing new centers.

Proposed Improvement Projects

Four activity center projects are proposed. These projects will cost about \$2.3 million within the six-year planning period (see Table 4).

Six-Year Capital Improvement Program

The park, trail, and activity center projects planned over the next six years are shown below.

Chapter 5 - Sheriff's Office

Existing Sheriff's Office Space

The 2022 inventory of Sheriff's office space is 22,902 square feet. This inventory is shown below.

Table 9. Existing Sheriff's Facilities

Site No.	Facility Name		Square Feet
1	Public Safety Building (311 Grand Ave)		15,102
2	Minimum Security Correction Facility (2030 Division St.)		6,000
3	Laurel Substation (194 W. Laurel Rd.)		1,800
		TOTAL	22,902

Notes: The Sheriff's Office also has storage facilities at various locations in Whatcom County. The County has two mobile homes and an old detention facility in Point Roberts. The resident deputies operate out of their homes or utilize space at the U.S. Customs office at the border. Deputies are able to utilize an office at the Kendall Fire hall when working in the area.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for Sheriff's Office facilities. Rather, Comprehensive Plan Policy 4D-2 is to:

Maintain Sheriff's Office adult corrections facilities and headquarters to provide a safe environment for the community, staff and inmates. . . Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

Proposed Improvement Projects

A new Sheriff's Office and a new public safety radio system are planned within the next six years. The comprehensive radio system update will include infrastructure (such as towers), radio systems in buildings, radios in vehicles, and hand-held radios. These improvements will cost approximately \$22 million, as shown below.

Chapter 6 – Emergency Management

Existing Emergency Management Space

The 2022 inventory of Sheriff's Office, Division of Emergency Management space is 24,000 square feet, located at the Whatcom Unified Emergency Coordination Center (WUECC). Rented by and shared between both Whatcom County and the City of Bellingham, the WUECC is comprised of 2,000 square feet of office space and an additional 22,000 square feet of support facilities (used for meetings, training, exercises, and during emergencies). The WUECC serves as the Emergency Operations Center for both the County and the City.

Table 11. Existing Emergency Management/EOC Facilities

Site No.	Facility Name	Square feet
1	Whatcom Unified Emergency Coordination Center	24,000
	3888 Sound Way, Bellingham	

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for emergency management facilities. Rather, Comprehensive Plan Policy 4D-4 is to:

Maintain adequate facilities for daily emergency management activities and, during an emergency or disaster, for the emergency operations center. The facilities will provide sufficient space for activities relating to emergency/disaster planning, mitigation, response and recovery. Existing facilities may be expanded, remodeled, and/ or new facilities developed in response to changing need.

The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

There are no emergency management capital improvement projects planned over the next six years.

Chapter 7 – Adult Corrections

Existing Jail Facilities

The County's Main Jail was designed and originally built to hold 148 beds, although with some limited remodeling and the use of double bunking, the operational capacity of the main jail should be for the use of 212 beds. Whatcom County completed construction of a 150 bed minimum security correction facility on Division St. in 2006. The Main Jail is located in the Public Safety Building next to the County Courthouse in downtown Bellingham and the Minimum Security Correction Facility is located in the Bakerview Rd. industrial area.

Table 12. Existing Jail Beds

Site No.	Facility Name	Jail Beds
1	Public Safety Building (311 Grand Ave.)	212
2	Jail Work Center (2030 Division St.)	<u>150</u>
	TO	TAL 362

Note: As the result of the COVID-19 pandemic, the jail is operating at a reduced capacity to provide for social distancing until such time as the pandemic is declared under control by the Washington State Department of Health. Due to the mix of offenders, a firm population cap has not been set, but is anticipated to remain at approximately 150 offenders at the Downtown Jail.

Future Needs

There continues to be serious concerns among law and justice officials related to jail facility needs in the community. That need has been documented over the years, with the most recent being the *Building Assessment Studies and Cost Estimates for Capital Improvements at the Jail (Public Safety Building)* (Sept. 2017).

The Whatcom County Comprehensive Plan does not contain a level of service standard for jail facilities. Rather, Comprehensive Plan Policy 4D-2 is to:

Maintain Sheriff's Office adult corrections facilities and headquarters to provide a safe environment for the community, staff and inmates. The number of jail beds in adult corrections facilities will be determined after review of multiple factors, including projected population growth, State sentencing laws, alternative programs, treatment diversion programs, early release programs, the need to separate violent inmates, the need to separate inmates by gender, the need to separate inmates by other classification considerations, average length of stay, peak inmate populations and available funding. Existing facilities may be expanded, remodeled, and/ or new facilities developed in response to changing need.

Proposed Improvement Projects

The adult corrections projects planned over the next six years are shown below. These improvements will cost approximately \$121 million, as shown below.

Table 13. Adult Corrections Projects

Chapter 8 - Juvenile Detention

Existing Juvenile Detention Facilities

The 2022 inventory of County juvenile detention facilities includes 32 beds serving the countywide population. The juvenile detention facility is located on the sixth floor of the County Courthouse at 311 Grand Avenue.

Table 14. Existing Juvenile Detention Beds

Site No.	Facility Name	Beds
1	County Courthouse (311 Grand Ave.)	32

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for juvenile detention facilities. Rather, Comprehensive Plan Policy 4D-3 is to:

Maintain juvenile detention facilities and alternative corrections programs to provide safe and secure methods to provide accountability and support for minors who break the law. Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

There are no juvenile detention capital improvement projects planned in the six-year planning period.

Chapter 9 – Transportation

Existing Roads

The 2021 inventory shows a total of 935 miles of County roads.

Future Needs

The Whatcom County Comprehensive Plan sets level of service (LOS) standards for County roads. Future traffic and the level of service for roads can be forecasted using computer-modeling software. The Whatcom Council of Governments forecasts future traffic utilizing a computer transportation model. This modeling effort will inform transportation planning in Whatcom County.

Whatcom County accomplishes planning for County road improvements by approving a Six-Year Transportation Improvement Program each year, as required by RCW 36.81.121.

Proposed Improvement Projects

The Whatcom County Six-Year Transportation Improvement Program includes preliminary planning for one proposed new road project:

• Lincoln Road extension (between Harborview Road and Blaine Road).

While this project is on the Six-Year Transportation Improvement Program, construction is not anticipated within the six-year planning period. Rather, preliminary engineering to determine project feasibility may be initiated within this time frame. The Transportation Improvement Program includes two road projects over \$5 million:

- North Lake Samish Rd. Bridge Replacement (\$10.6 million); and
- East Smith Rd / Hannegan Rd intersection improvements (\$5.4 million).

The Six-Year Transportation Improvement Program contains a variety of other projects, including flood damage repair, bridge replacements, intersection improvements, road reconstruction, and fish passage projects.

Existing Ferry Facilities

Whatcom County currently has one ferry vessel serving Lummi Island. The ferry runs between Lummi Island and Gooseberry Point on a daily basis.

Future Needs

Whatcom County Comprehensive Plan Policy 6A-1 establishes the following LOS standard for the ferry:

Public Works shall establish a performance metric to monitor service performance of the Lummi Island ferry system. This will include a week long count at least every quarter in both sailing directions. This count will include percent capacity, on-time performance, and the number of vehicles left in the queue. The count shall be compared to the desired level of service of no more than two sailing waits during average weekday peak periods.

The Special Programs Manager for the County Public Works Department confirmed that the ferry service currently meets the LOS standard.

Whatcom County accomplishes planning for the ferry by approving a Fourteen-Year Ferry Capital Program, as required by RCW 36.54.015.

Proposed Improvement Projects

The Six-Year Transportation Improvement Program includes replacement of the Whatcom Chief ferry (\$49.4 million) and terminal modifications. It also includes engineering for relocation of the ferry terminal.

Total Transportation Costs

Transportation projects, including road and ferry projects, total approximately \$114 million over the six-year planning period. This includes almost \$50 million in local funds, with the remainder coming from the State and Federal governments.

Chapter 10 – Stormwater Facilities

Existing Stormwater Management Facilities

The Public Works Department is responsible for design, engineering, and construction of county-owned stormwater facilities. Many stormwater facilities are road-related stormwater conveyance systems such as culverts and ditches on and adjacent to county roads. Others are off right-of-way facilities that control storm flows and improve water quality.

In response to increasing federal and state mandates to manage stormwater and the public's desire to improve stewardship of sensitive watersheds, Whatcom County established a Stormwater Division in 2005. The Stormwater Division is responsible for planning, designing, engineering, and construction of stormwater facilities. Inventories of existing stormwater facilities are maintained by the Public Works Department. The Engineering Services Division maintains an inventory of all road-related facilities. The Stormwater Division maintains an inventory of public and private stormwater facilities in the area covered by the County's NPDES Phase II permit for Municipal Separate Storm Sewer Systems. This inventory includes ditches, culverts, catch basins, vaults, ponds, and swales. Completed Stormwater Construction Projects since the Stormwater Division was created in 2005 are listed below.

Figure 1. Lake Whatcom Cedar Hills-Euclid Stormwater Improvements

Whatcom County Public Works regularly seeks and is awarded grant money that contributes to the design and construction of these stormwater projects that improve water quality through treatment systems and stream stabilization.

Future Needs

An increasing emphasis on the protection of sensitive watersheds has resulted in the adoption of comprehensive stormwater plans, including plans for Lake Whatcom and Birch Bay. The adopted plans identify work towards planning, design, engineering, and construction of capital projects intended to address stormwater issues.

Proposed Improvement Projects

Stormwater improvement projects totaling approximately \$14.7 million are proposed over the six-year planning period as shown below. These costs would be paid by Real Estate Excise Tax (REET), Lake Whatcom Stormwater Utility, grants, Road fund, funding from the Birch Bay Watershed and Aquatic Resources Management District (BBWARM), Flood fund, and Federal Emergency Management Agency (FEMA) funds.
