INTRODUCTION DATE: November 9, 2022

ORDINANCE NO. 2022-074

**ADOPTING AMENDMENTS TO THE
WHATCOM COUNTY COMPREHENSIVE PLAN
SIX-YEAR CAPITAL IMPROVEMENT PROGRAM**

WHEREAS, The Whatcom County Planning Commission held a public hearing and issued recommendations on the proposed amendments; and

WHEREAS, The County Council considered Planning Commission recommendations; and

WHEREAS, The County Council held a public hearing; and

WHEREAS, The County Council hereby adopts the following findings of fact:

FINDINGS OF FACT

1. The proposal is to amend the Whatcom County Comprehensive Plan as follows:
 - a. Adopting the new Six-Year Capital Improvement Program (CIP) for Whatcom County Facilities 2023-2028 (Appendix F of the Whatcom County Comprehensive Plan).
 - b. Repealing the existing Six-Year CIP for Whatcom County Facilities 2021-2026.
2. Notice of the subject amendments was submitted to the Washington State Department of Commerce on September 7, 2022.
3. A Determination of Non-Significance was issued under the State Environmental Policy Act (SEPA) by the Responsible Official on September 16, 2022.
4. Notice of the Planning Commission hearing for the subject amendments was published in the Bellingham Herald on September 16, 2022.

5. Notice of the Planning Commission hearing was posted on the County website on September 14, 2022.
6. Notice of the Planning Commission hearing was sent to citizens, media, cities and others on the County's e-mail list on September 15, 2022.
7. The Planning Commission held a public hearing on the subject amendments on September 29, 2022.
8. Pursuant to WCC 22.10.060(1), in order to approve the proposed comprehensive plan amendments, the County must find all of the following:
 - a. The amendment conforms to the requirements of the Growth Management Act, is internally consistent with the county-wide planning policies and is consistent with any interlocal planning agreements.
 - b. Further studies made or accepted by the Department of Planning and Development Services indicate changed conditions that show need for the amendment.
 - c. The public interest will be served by approving the amendment. In determining whether the public interest will be served, factors including but not limited to the following shall be considered:
 - i. The anticipated effect upon the rate or distribution of population growth, employment growth, development, and conversion of land as envisioned in the comprehensive plan.
 - ii. The anticipated effect on the ability of the county and/or other service providers, such as cities, schools, water and/or sewer purveyors, fire districts, and others as applicable, to provide adequate services and public facilities including transportation facilities.
 - iii. Anticipated impact upon designated agricultural, forest and mineral resource lands.
 - d. The amendment does not include or facilitate spot zoning.
9. The Growth Management Act (GMA) establishes planning goals in RCW 36.70A.020 to guide adoption of comprehensive plan amendments.

10. GMA planning goal # 12 is to "Ensure that those public facilities and services necessary to support development shall be adequate to serve the development at the time the development is available for occupancy and use without decreasing current service levels below locally established minimum standards" (RCW 36.70A.020(12)).
11. The subject amendments update the Six-Year CIP for Whatcom County Facilities for the 2023-2028 planning period. Updating the CIP is one step in the process of planning regional facilities provided by the County to serve the people of Whatcom County.
12. The GMA, at RCW 36.70A.070(3), requires that a comprehensive plan must include a capital facilities plan element consisting of:
 - a. An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities.
 - b. A forecast of the future needs for such capital facilities.
 - c. The proposed locations and capacities of expanded or new capital facilities.
 - d. At least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes.
 - e. A requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent.
13. The Six-Year CIP for Whatcom County Facilities contains an inventory of existing facilities, a forecast of future needs based upon the level of service standards adopted in the Whatcom County Comprehensive Plan and/or other relevant factors, proposed capital facility projects, costs and funding sources.
14. Existing Comprehensive Plan Policy 4A-4 addresses the GMA requirement to reassess the land use element if probable capital facility funding falls short.
15. County-Wide Planning Policy K-1 indicates that, as part of the comprehensive planning process, the County must identify appropriate land for public facilities that meets the needs of the community including recreation, transportation and human service facilities.

16. The Six-Year CIP identifies County park, trail, activity center, transportation and other improvements as contemplated by the County Wide Planning Policies.
17. Existing interlocal agreements between Whatcom County and the cities indicate that the County will consult with the appropriate city in planning new road construction projects within the city's urban growth area. The interlocal agreements also address joint planning for parks.
18. The County Engineer confirmed on August 18, 2022 that the County sends a copy of the six-year transportation improvement program to cities and coordinates projects with the applicable city. The Whatcom County Parks Interim Director confirmed on August 12, 2022 that the County Parks' staff maintains a working relationship with appropriate staff from cities on joint park projects and planning. Therefore, the type of cooperation envisioned by the interlocal agreements is occurring.
19. The Whatcom County Comprehensive Plan calls for an update of the Six-Year CIP for County facilities every other year. Specifically, Policy 4B-1 is to:

Maintain and update, on at least a biennial basis, a six-year capital improvement program (CIP) that identifies projects, outlines a schedule, and designates realistic funding sources for all county capital projects based on a review of population and revenue conditions existing at that time.
20. A revised CIP has been formulated for County owned or operated facilities, which presents improvement projects over the new six-year planning period.
21. The Six-Year CIP for Whatcom County Facilities 2023-2028 is based upon anticipated population growth over the six-year planning period and other relevant factors. Therefore, the proposal should complement the County's growth and development plans.
22. The Six-Year CIP for Whatcom County Facilities will have a positive impact on the County's ability to provide public facilities by planning ahead for such facilities.
23. The goal of the Six-Year CIP for Whatcom County Facilities is to plan for County owned or operated parks, trails, activity centers, maintenance and operations, general government buildings and sites, Sheriff's Office, emergency management, adult corrections, juvenile detention, transportation, and stormwater facilities to serve the people of Whatcom County. Planning for such County facilities is in the public interest.
24. The subject proposal does not involve rezoning property.

CONCLUSION

The subject Whatcom County Comprehensive Plan amendments are consistent with the approval criteria in WCC 22.10.060.

NOW, THEREFORE, BE IT ORDAINED by the Whatcom County Council that:

Section 1. The Six-Year Capital Improvement Program for Whatcom County Facilities 2023-2028 (Appendix F of the Whatcom County Comprehensive Plan) is hereby adopted as shown on Exhibit A.

Section 2. The Six-Year Capital Improvement Program for Whatcom County Facilities 2021-2026 is hereby repealed as shown on Exhibit B.

Section 3. Adjudication of invalidity of any of the sections, clauses, or provisions of this ordinance shall not affect or impair the validity of the ordinance as a whole or any part thereof other than the part so declared to be invalid.

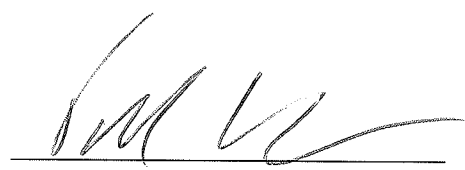

ADOPTED this 22nd day of November, 2022.

Chapter 1 – Introduction

The Growth Management Act requires that the County’s Comprehensive Plan include a “capital facilities plan element” (RCW 36.70A.070(3)). The Whatcom County Comprehensive Plan calls for the County to develop and update the Six-Year Capital Improvement Program (CIP) for County projects every two years. The main purpose of the Capital Improvement Program is to identify priority capital improvement projects and estimated costs, outline a schedule for project completion, and designate funding sources for these projects based on a review of existing and projected population and revenue conditions for the six year planning period.

Growth Management Act Requirements

According to the Growth Management Act, a county’s capital facilities plan must include five items, which are shown below.

- A. *An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities.*

Current inventories of existing County capital facilities, based upon information provided by various County departments, are included in each chapter of this document.

- B. *A forecast of the future needs for such capital facilities.*

Chapter 4 of the Whatcom County Comprehensive Plan establishes numerical “level of service” standards for County parks and trails and contains policies relating to other County facilities. Capital facility needs are forecasted over the six-year planning period by applying the adopted level of service standards to the expected population in the year 2028 and by considering other relevant factors.

- C. *Proposed locations and capacities of expanded or new capital facilities.*

General locations and capacities of proposed County facilities are indicated in this document (as applicable).

- D. *At least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes.*

This Six-Year Capital Improvement Program presents costs and funding sources for proposed County capital facilities (all figures are in 2022 dollars). There are a variety of funding sources that the County may utilize to pay for capital facilities, including real estate excise taxes (REET), sales tax, the Public Utilities Improvement Fund (also known as the Rural Sales Tax Fund, Economic Development Investment Fund or EDI Fund), Road Fund, state grants, federal grants and a variety of other sources.

- E. *A requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent.*

Finally, in accordance with the Growth Management Act, a requirement to reassess the land use element of the Comprehensive Plan if probable funding falls short of meeting existing needs and to ensure consistency between plans already exists in the Comprehensive Plan (Policy 4A-4).

Charter Provisions and the County Budget

In addition to Growth Management Act provisions relating to capital facilities, Section 6.30 of the County Charter also requires the County to include a six-year capital improvement program as part of the budget. Appropriations for 2023-2024 capital projects may be included in the biennial budget or may be adopted through the supplemental budget process. Ultimate funding for capital improvement projects is subject to County Council authorization in the adopted budget. Costs identified for 2025-2028 are included for planning purposes and review of potential future needs, but not for budget authorization at this time.

Chapter 2 – Parks, Trails, and Activity Centers

Parks

The 2022 inventory of County parks and open space areas is over 16,200 acres. This inventory is shown in Table 1 below.

61	Welcome Bridge River Access, 5585 Mosquito Lake Rd.	0.6
TOTAL		16,210.0

Pursuant to RCW 36.87.130, there are also public access properties on right-of-way ends that intersect shorelines. Whatcom County also holds public access easements for recreational purposes on certain lands owned by the City of Lynden, Whatcom Land Trust and the Lummi Island Heritage Trust.

Future Needs

A level of service of 9.6 acres of developed parkland for every 1,000 people in the County was adopted in the Whatcom County Comprehensive Plan. The County’s existing parks will meet the adopted level of service over the six-year planning period. However, the County is proposing park improvement projects to increase quality of existing park facilities and develop the Birch Bay Community Park to meet the longer term needs of a growing population.

Proposed Improvement Projects

Park improvement projects, totaling approximately \$16.8 million, are proposed over the six-year planning period (see Table 4). Prioritize funding for restroom facilities at the Birch Bay Beach Park.

Trails

Whatcom County currently has over 75 miles of trails in various locations throughout the County. This inventory is shown in Table 2 below.

Table 2. Existing Trails

Site No.	Trail Name and Location	Miles
1	Bay Horizon/Bay Crest Trail	0.75
2	Bay to Baker Maple Falls-Glacier	4.00

23	Stimpson Family Nature Reserve, 2076 Lake Louise Rd.	4.02
24	Sunset Farm, 7977 Blaine Rd.	0.56
25	Teddy Bear Cove	0.33
TOTAL		75.32

Future Needs

A level of service of 0.60 miles of trails for every 1,000 people in the County was adopted in the Whatcom County Comprehensive Plan. With projected population growth in Whatcom County over the next six years, about 74 additional miles of trails would be needed by the year 2028 to serve the people of Whatcom County.

Proposed Improvement Projects

Trail improvement projects and associated facilities, totaling approximately \$7.4 million dollars, are proposed over the six-year planning period (see Table 4). These projects would add up to 25.6 trail miles (the South Fork Park trails project would add 5.5 miles, the Lake Whatcom trails project would add up to 20 miles, and a Silver Lake project would add 0.15 miles).

While there is a shortfall in trail miles provided by the County, there are other trails that are owned/maintained by a variety of agencies or jurisdictions that provide recreational opportunities for Whatcom County residents and visitors.

Activity Centers

There are currently 13 activity centers that provide a variety of year-round programs for various age groups. The activity center inventory is shown in Table 3 below.

Table 3. Existing Activity Centers

Site No.	Activity Center Name and Location
1	Bay Horizon, 7511 Gemini Street
2	Bellingham Senior Activity Center, 315 Halleck Street
3	Blaine Community Senior Center, 763 G Street
4	East Whatcom Regional Resource Center, 8251 Kendall Rd.
5	Everson Senior Center, 111 W. Main Street
6	Ferndale Senior Center, 1999 Cherry Street
7	Lynden Senior Center, 401 Grover Street
8	Plantation Rifle Range, 5102 Samish Way
9	Point Roberts Senior Center, 1487 Gulf Road
10	Roeder Home, 2600 Sunset Dr.
11	Sumas Senior Center, 461 2nd Street
12	Van Zandt Community Hall, 4106 Valley Highway
13	Welcome Senior Center, 5103 Mosquito Lake Rd.

Note: The Blaine, Everson, Lynden and Sumas Centers are owned by these respective cities. The Point Roberts Center is owned by the Point Roberts Park District. Whatcom County provides and/or contracts for senior activities and recreational programming at these centers.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for activity centers. Rather, Comprehensive Plan Policy 4F-5 states:

Continue to provide and support activity centers, including senior centers, to serve the growing population of Whatcom County by the following methods, as needed, which are listed in priority order: (1) implementing programming changes, (2) adding space to existing centers, and/or (3) establishing new centers.

Proposed Improvement Projects

Four activity center projects are proposed. These projects will cost about \$2.3 million within the six-year planning period (see Table 4).

Six-Year Capital Improvement Program

The park, trail, and activity center projects planned over the next six years are shown below.

Chapter 3 – Maintenance and Operations

Existing Maintenance and Operations Space

The 2022 inventory of maintenance & operations/facilities management space is 70,681 square feet. This inventory is shown below.

Table 5. Existing Space

3	Minimum Security Correction Facility - 2030 Division St. (Facilities Management Storage)	3,660
TOTAL		70,681

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for maintenance and operations. The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

Improvement and maintenance projects on existing buildings and sites over the six-year planning period total over \$2.6 million as shown below.

	TOTAL	301,375

Note: The County also rents 4,820 of building space at 600 Dupont St.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for general government buildings. The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

Improvement and maintenance projects on existing buildings and sites over the six-year planning period total over \$67 million as shown below.

3	Laurel Substation (194 W. Laurel Rd.)	1,800
	TOTAL	22,902

Notes: The Sheriff’s Office also has storage facilities at various locations in Whatcom County. The County has two mobile homes and an old detention facility in Point Roberts. The resident deputies operate out of their homes or utilize space at the U.S. Customs office at the border. Deputies are able to utilize an office at the Kendall Fire hall when working in the area.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for Sheriff’s Office facilities. Rather, Comprehensive Plan Policy 4D-2 is to:

Maintain Sheriff’s Office adult corrections facilities and headquarters to provide a safe environment for the community, staff and inmates. . . Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

Proposed Improvement Projects

A new Sheriff’s Office and a new public safety radio system are planned within the next six years. The comprehensive radio system update will include infrastructure (such as towers), radio systems in buildings, radios in vehicles, and hand-held radios. These improvements will cost approximately \$22 million, as shown below.

Chapter 6 – Emergency Management

Existing Emergency Management Space

The 2022 inventory of Sheriff’s Office, Division of Emergency Management space is 24,000 square feet, located at the Whatcom Unified Emergency Coordination Center (WUECC). Rented by and shared between both Whatcom County and the City of Bellingham, the WUECC is comprised of 2,000 square feet of office space and an additional 22,000 square feet of support facilities (used for meetings, training, exercises, and during emergencies). The WUECC serves as the Emergency Operations Center for both the County and the City.

Table 11. Existing Emergency Management/EOC Facilities

Site No.	Facility Name	Square feet
1	Whatcom Unified Emergency Coordination Center 3888 Sound Way, Bellingham	24,000

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for emergency management facilities. Rather, Comprehensive Plan Policy 4D-4 is to:

Maintain adequate facilities for daily emergency management activities and, during an emergency or disaster, for the emergency operations center. The facilities will provide sufficient space for activities relating to emergency/disaster planning, mitigation, response and recovery. Existing facilities may be expanded, remodeled, and/ or new facilities developed in response to changing need.

The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

There are no emergency management capital improvement projects planned over the next six years.

Chapter 7 – Adult Corrections

Existing Jail Facilities

The County’s Main Jail was designed and originally built to hold 148 beds, although with some limited remodeling and the use of double bunking, the operational capacity of the main jail should be for the use of 212 beds. Whatcom County completed construction of a 150 bed minimum security correction facility on Division St. in 2006. The Main Jail is located in the Public Safety Building next to the County Courthouse in downtown Bellingham and the Minimum Security Correction Facility is located in the Bakerview Rd. industrial area.

Table 12. Existing Jail Beds

Site No.	Facility Name	Jail Beds
1	Public Safety Building (311 Grand Ave.)	212
2	Jail Work Center (2030 Division St.)	150
	TOTAL	362

Note: As the result of the COVID-19 pandemic, the jail is operating at a reduced capacity to provide for social distancing until such time as the pandemic is declared under control by the Washington State Department of Health. Due to the mix of offenders, a firm population cap has not been set, but is anticipated to remain at approximately 150 offenders at the Downtown Jail.

Future Needs

There continues to be serious concerns among law and justice officials related to jail facility needs in the community. That need has been documented over the years, with the most recent being the *Building Assessment Studies and Cost Estimates for Capital Improvements at the Jail (Public Safety Building)* (Sept. 2017).

The Whatcom County Comprehensive Plan does not contain a level of service standard for jail facilities. Rather, Comprehensive Plan Policy 4D-2 is to:

Maintain Sheriff’s Office adult corrections facilities and headquarters to provide a safe environment for the community, staff and inmates. The number of jail beds in adult corrections facilities will be determined after review of multiple factors, including projected population growth, State sentencing laws, alternative programs, treatment diversion programs, early release programs, the need to separate violent inmates, the need to separate inmates by gender, the need to separate inmates by other classification considerations, average length of stay, peak inmate populations and available funding. Existing facilities may be expanded, remodeled, and/ or new facilities developed in response to changing need.

Proposed Improvement Projects

The adult corrections projects planned over the next six years are shown below. These improvements will cost approximately \$151 million, as shown below.

Table 13. Adult Corrections Projects

Chapter 8 – Juvenile Detention

Existing Juvenile Detention Facilities

The 2022 inventory of County juvenile detention facilities includes 32 beds serving the countywide population. The juvenile detention facility is located on the sixth floor of the County Courthouse at 311 Grand Avenue.

Table 14. Existing Juvenile Detention Beds

Site No.	Facility Name	Beds
1	County Courthouse (311 Grand Ave.)	32

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for juvenile detention facilities. Rather, Comprehensive Plan Policy 4D-3 is to:

Maintain juvenile detention facilities and alternative corrections programs to provide safe and secure methods to provide accountability and support for minors who break the law. Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

There are no juvenile detention capital improvement projects planned in the six-year planning period.

Chapter 9 – Transportation

Existing Roads

The 2021 inventory shows a total of 935 miles of County roads.

Future Needs

The Whatcom County Comprehensive Plan sets level of service (LOS) standards for County roads. Future traffic and the level of service for roads can be forecasted using computer-modeling software. The Whatcom Council of Governments forecasts future traffic utilizing a computer transportation model. This modeling effort will inform transportation planning in Whatcom County.

Whatcom County accomplishes planning for County road improvements by approving a Six-Year Transportation Improvement Program each year, as required by RCW 36.81.121.

Proposed Improvement Projects

The Whatcom County Six-Year Transportation Improvement Program includes preliminary planning for one proposed new road project:

- Lincoln Road extension (between Harborview Road and Blaine Road).

While this project is on the Six-Year Transportation Improvement Program, construction is not anticipated within the six-year planning period. Rather, preliminary engineering to determine project feasibility may be initiated within this time frame. The Transportation Improvement Program includes two road projects over \$5 million:

- North Lake Samish Rd. Bridge Replacement (\$10.6 million); and
- East Smith Rd / Hannegan Rd intersection improvements (\$5.4 million).

The Six-Year Transportation Improvement Program contains a variety of other projects, including flood damage repair, bridge replacements, intersection improvements, road reconstruction, and fish passage projects.

Existing Ferry Facilities

Whatcom County currently has one ferry vessel serving Lummi Island. The ferry runs between Lummi Island and Gooseberry Point on a daily basis.

Future Needs

Whatcom County Comprehensive Plan Policy 6A-1 establishes the following LOS standard for the ferry:

Public Works shall establish a performance metric to monitor service performance of the Lummi Island ferry system. This will include a week long count at least every quarter in both sailing directions. This count will include percent capacity, on-time performance, and the number of vehicles left in the queue. The count shall be compared to the desired level of service of no more than two sailing waits during average weekday peak periods.

The Special Programs Manager for the County Public Works Department confirmed that the ferry service currently meets the LOS standard.

Whatcom County accomplishes planning for the ferry by approving a Fourteen-Year Ferry Capital Program, as required by RCW 36.54.015.

Proposed Improvement Projects

The Six-Year Transportation Improvement Program includes replacement of the Whatcom Chief ferry (\$49.4 million) and terminal modifications. It also includes engineering for relocation of the ferry terminal.

Total Transportation Costs

Transportation projects, including road and ferry projects, total approximately \$114 million over the six-year planning period. This includes almost \$50 million in local funds, with the remainder coming from the State and Federal governments.

Chapter 10 – Stormwater Facilities

Existing Stormwater Management Facilities

The Public Works Department is responsible for design, engineering, and construction of county-owned stormwater facilities. Many stormwater facilities are road-related stormwater conveyance systems such as culverts and ditches on and adjacent to county roads. Others are off right-of-way facilities that control storm flows and improve water quality.

In response to increasing federal and state mandates to manage stormwater and the public’s desire to improve stewardship of sensitive watersheds, Whatcom County established a Stormwater Division in 2005. The Stormwater Division is responsible for planning, designing, engineering, and construction of stormwater facilities. Inventories of existing stormwater facilities are maintained by the Public Works Department. The Engineering Services Division maintains an inventory of all road-related facilities. The Stormwater Division maintains an inventory of public and private stormwater facilities in the area covered by the County’s NPDES Phase II permit for Municipal Separate Storm Sewer Systems. This inventory includes ditches, culverts, catch basins, vaults, ponds, and swales. Completed Stormwater Construction Projects since the Stormwater Division was created in 2005 are listed below.

Figure 1. Lake Whatcom Cedar Hills-Euclid Stormwater Improvements

Whatcom County Public Works regularly seeks and is awarded grant money that contributes to the design and construction of these stormwater projects that improve water quality through treatment systems and stream stabilization.

Future Needs

An increasing emphasis on the protection of sensitive watersheds has resulted in the adoption of comprehensive stormwater plans, including plans for Lake Whatcom and Birch Bay. The adopted plans identify work towards planning, design, engineering, and construction of capital projects intended to address stormwater issues.

Proposed Improvement Projects

Stormwater improvement projects totaling approximately \$14.7 million are proposed over the six-year planning period as shown below. These costs would be paid by Real Estate Excise Tax (REET), Lake Whatcom Stormwater Utility, grants, Road fund, funding from the Birch Bay Watershed and Aquatic Resources Management District (BBWARM), Flood fund, and Federal Emergency Management Agency (FEMA) funds.

Chapter 1 – Introduction

The Growth Management Act requires that the County's Comprehensive Plan include a "capital facilities plan element" (RCW 36.70A.070(3)). The Whatcom County Comprehensive Plan calls for the County to develop and update the Six-Year Capital Improvement Program (CIP) for County projects every two years. The main purpose of the Capital Improvement Program is to identify priority capital improvement projects and estimated costs, outline a schedule for project completion, and designate funding sources for these projects based on a review of existing and projected population and revenue conditions for the six-year planning period.

Growth Management Act Requirements

According to the Growth Management Act, a county's capital facilities plan must include five items, which are shown below:

A. An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities.

Current inventories of existing County capital facilities, based upon information provided by various County departments, are included in each chapter of this document.

B. A forecast of the future needs for such capital facilities.

Chapter 4 of the Whatcom County Comprehensive Plan establishes numerical "level of service" standards for County parks and trails and contains policies relating to other County facilities. Capital facility needs are forecasted over the six-year planning period by applying the adopted level of service standards to the expected population in the year 2026 and by considering other relevant factors.

C. Proposed locations and capacities of expanded or new capital facilities.

General locations and capacities of proposed County facilities are indicated in this document (as applicable).

D. At least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes.

This Six-Year Capital Improvement Program presents costs and funding sources for proposed County capital facilities (all figures are in 2020 dollars). There are a variety of funding sources that the County may utilize to pay for capital facilities, including real estate excise taxes (REET), sales tax, the Public Utilities Improvement Fund (also known as the Rural Sales Tax Fund, Economic Development Investment Fund or EDI Fund), Road Fund, state grants, federal grants and a variety of other sources.

~~E. A requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent.~~

Finally, in accordance with the Growth Management Act, a requirement to reassess the land use element of the Comprehensive Plan if probable funding falls short of meeting existing needs and to ensure consistency between plans already exists in the Comprehensive Plan (Policy 4A-4).

~~Charter Provisions and the County Budget~~

~~In addition to Growth Management Act provisions relating to capital facilities, Section 6.30 of the County Charter also requires the County to include a six-year capital improvement program as part of the budget. Appropriations for 2021-2022 capital projects may be included in the biennial budget or may be adopted through the supplemental budget process. Ultimate funding for capital improvement projects is subject to County Council authorization in the adopted budget. Costs identified for 2023-2026 are included for planning purposes and review of potential future needs, but not for budget authorization at this time.~~

Chapter 2 ~~Parks, Trails, and Activity Centers~~

Parks

The 2020 inventory of County parks and open space areas is over 16,200 acres. This inventory is shown below:

Table 1. Existing Parks

Site No.	Park Name and Location	Acres

Future Needs

A level of service of 9.6 acres of developed parkland for every 1,000 people in the County was adopted in the Whatcom County Comprehensive Plan. The County's existing parks will meet the adopted level of service over the six-year planning period. However, the County is proposing park improvement projects to increase quality of existing park facilities and develop the Birch Bay Community Park to meet the longer term needs of a growing population.

Proposed Improvement Projects

Park improvement projects, totaling approximately \$8 million, are proposed over the six-year planning period.

Trails

Whatcom County currently has almost 74 miles of trails in various locations throughout the County. This inventory is shown below.

Table 2. Existing Trails

Site No.	Trail Name and Location	Miles
1	Bay Horizon/Bay Crest Trail	0.75
2	Bay to Baker Maple Falls-Glacier	4.00

23	Sunset Farm, 7977 Blaine Rd.	0.56
24	Teddy Bear Cove	0.33
	TOTAL	73.74

Future Needs

A level of service of 0.60 miles of trails for every 1,000 people in the County was adopted in the Whatcom County Comprehensive Plan. With projected population growth in Whatcom County over the next six years, about 71 additional miles of trails would be needed by the year 2026 to serve the people of Whatcom County.

Proposed Improvement Projects

Trail improvement projects and associated facilities, totaling approximately \$4.8 million dollars, are proposed over the six year planning period. These projects would add 9 trail miles (the South Fork Park trails project would add 5 miles and the Lake Whatcom trails project would add 4 miles). Additionally, the Birch Bay Drive & Pedestrian Facility (beach restoration and berm project) will add 1 mile of trail.

While there is a shortfall in trail miles provided by the County, there are other trails that are owned/maintained by a variety of agencies or jurisdictions that provide recreational opportunities for Whatcom County residents and visitors.

Activity Centers

There are currently 13 activity centers that provide a variety of year-round programs for various age groups. The activity center inventory is shown below.

Table 3. Existing Activity Centers

Site No.	Activity Center Name and Location
1	Bay Horizon, 7511 Gemini Street
2	Bellingham Senior Activity Center, 315 Halleck Street

12	Van Zandt Community Hall, 4106 Valley Highway
13	Welcome Senior Center, 5103 Mosquito Lake Rd.

Note: The Blaine, Everson, Lynden and Sumas Centers are owned by these respective cities. The Point Roberts Center is owned by the Point Roberts Park District. Whatcom County provides and/or contracts for senior activities and recreational programming at these centers.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for activity centers. Rather, Comprehensive Plan Policy 4F-5 states:

Continue to provide and support activity centers, including senior centers, to serve the growing population of Whatcom County by the following methods, as needed, which are listed in priority order: (1) implementing programming changes, (2) adding space to existing centers, and/or (3) establishing new centers.

Proposed Improvement Projects

Two activity center projects, involving a boiler replacement at the East Whatcom Regional Resource Center and demolition of a building at Bay Horizon, are proposed. These project will cost about \$591,000 within the six-year planning period.

Six-Year Capital Improvement Program

The park, trail, and activity center projects planned over the next six years are shown below.

TOTAL		70,681

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for maintenance and operations. The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

Improvement and maintenance projects on existing buildings and sites over the six-year planning period total over \$812,000 as shown below:

TOTAL		331,141

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for general government buildings. The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

Improvement and maintenance projects on existing buildings and sites over the six-year planning period total approximately \$52.9 million as shown below.

TOTAL		22,902

Notes: The Sheriff’s Office also has storage facilities at various locations in Whatcom County. The County has two mobile homes and an old detention facility in Point Roberts. The resident deputies operate out of their homes or utilize space at the U.S. Customs office at the border.

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for Sheriff’s Office facilities. Rather, Comprehensive Plan Policy 4D-2 is to:

Maintain Sheriff’s Office adult corrections facilities and headquarters to provide a safe environment for the community, staff and inmates. . . Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

Proposed Improvement Projects

A new Sheriff’s Office, satellite office, and a new public safety radio system are planned within the next six years. The comprehensive radio system update will include infrastructure (such as towers), radio systems in buildings, radios in vehicles, and hand held radios. These improvements will cost almost \$22 million, as shown below.

Chapter 6 — Emergency Management

Existing Emergency Management Space

The 2020 inventory of Sheriff’s Office, Division of Emergency Management space is 24,000 square feet, located at the Whatcom Unified Emergency Coordination Center (WUECC). Rented by and shared between both Whatcom County and the City of Bellingham, the WUECC is comprised of 2,000 square feet of office space and an additional 22,000 square feet of support facilities (used for meetings, training, exercises, and during emergencies). The WUECC serves as the Emergency Operations Center for both the County and the City.

Table 11. Existing Emergency Management/EOC Facilities

Site No.	Facility Name	Square feet
1	Whatcom Unified Emergency Coordination Center 3888 Sound Way, Bellingham	24,000

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for emergency management facilities. Rather, Comprehensive Plan Policy 4D-4 is to:

Maintain adequate facilities for daily emergency management activities and, during an emergency or disaster, for the emergency operations center. The facilities will provide sufficient space for activities relating to emergency/disaster planning, mitigation, response and recovery. Existing facilities may be expanded, remodeled, and/ or new facilities developed in response to changing need.

The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

There is one emergency management capital improvement project planned over the next six years, as shown below.

Table 12. Proposed Emergency Management/EOC Improvement Projects

Chapter 7 ~~Adult Corrections~~

Existing Jail Facilities

The County's Main Jail was designed and originally built to hold 148 beds, although with some limited remodeling and the use of double bunking, the operational capacity of the main jail should be for the use of 212 beds. Additionally, the jail is currently not in compliance with the Building/Fire Codes for double bunking, although a plan has been approved to bring it into partial compliance. Whatcom County completed construction of a 150 bed minimum security correction facility on Division St. in 2006. The Main Jail is located in the Public Safety Building next to the County Courthouse in downtown Bellingham and the Minimum Security Correction Facility is located in the Bakerview Rd. industrial area.

Table 13. Existing Jail Beds

Site No.	Facility Name	Jail Beds
1	Public Safety Building (311 Grand Ave.)	212
2	Jail Work Center (2030 Division St.)	150
TOTAL		362

Note: As the result of the COVID-19 pandemic, the jail is operating at a reduced capacity to provide for social distancing until such time as the pandemic is declared under control by the Washington State Department of Health. Due to the mix of offenders, a firm population cap has not been set, but is anticipated to remain at approximately 150 offenders at the Downtown Jail.

Future Needs

There continues to be serious concerns among law and justice officials related to jail facility needs in the community. That need has been documented over the years, with the most recent being the *Building Assessment Studies and Cost Estimates for Capital Improvements at the Jail (Public Safety Building)* (Sept. 2017).

The Whatcom County Comprehensive Plan does not contain a level of service standard for jail facilities. Rather, Comprehensive Plan Policy 4D-2 is to:

Maintain Sheriff's Office adult corrections facilities and headquarters to provide a safe environment for the community, staff and inmates. The number of jail beds in adult corrections facilities will be determined after review of multiple factors, including projected population growth, State sentencing laws, alternative programs, treatment diversion programs, early release programs, the need to separate violent inmates, the need to separate inmates by gender, the need to separate inmates by other classification considerations, average length of stay, peak inmate populations and available funding. Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

Proposed Improvement Projects

The adult corrections projects planned over the next six years are shown below.

Table 14. Proposed Improvement Projects

Chapter 8 — Juvenile Detention

Existing Juvenile Detention Facilities

The 2020 inventory of County juvenile detention facilities includes 32 beds serving the countywide population. The juvenile detention facility is located on the sixth floor of the County Courthouse at 311 Grand Avenue.

Table 15. Existing Juvenile Detention Beds

Site No.	Facility Name	Beds
1	County Courthouse (311 Grand Ave.)	32

Future Needs

The Whatcom County Comprehensive Plan does not contain a level of service standard for juvenile detention facilities. Rather, Comprehensive Plan Policy 4D-3 is to:

Maintain juvenile detention facilities and alternative corrections programs to provide safe and secure methods to provide accountability and support for minors who break the law. Existing facilities may be expanded, remodeled, and/or new facilities developed in response to changing need.

The County will budget for improvements to such facilities as needed.

Proposed Improvement Projects

There are no juvenile detention capital improvement projects planned in the six-year planning period.

Chapter 9—Transportation

Existing Roads

The 2019 inventory shows a total of 935.44 miles of County roads.

Future Needs

The Whatcom County Comprehensive Plan sets level of service (LOS) standards for County roads. Future traffic and the level of service for roads can be forecasted using computer modeling software. The Whatcom Council of Governments forecasts future traffic utilizing a computer transportation model. This modeling effort will inform transportation planning in Whatcom County.

Whatcom County accomplishes planning for County road improvements by approving a Six-Year Transportation Improvement Program each year, as required by RCW 36.81.121.

Proposed Improvement Projects

The Whatcom County Six-Year Transportation Improvement Program includes preliminary planning for two proposed new road projects:

- Horton Road connector (between Northwest Drive and Aldrich Road); and
- Lincoln Road extension (between Harborview Road and Blaine Road).

While these two projects are on the Six-Year Transportation Improvement Program, construction is not anticipated within the six-year planning period. Rather, preliminary engineering to determine project feasibility may be initiated within this time frame.

The six-year plan contains a variety of projects, including bridge replacements, intersection improvements, reconstruction, fish passage projects, and the Birch Bay Drive & Pedestrian Facility improvements, which include pedestrian and non-motorized enhancements along Birch Bay Dr.

Existing Ferry Facilities

Whatcom County currently has one ferry vessel serving Lummi Island. The ferry runs between Lummi Island and Gooseberry Point on a daily basis.

Future Needs

Current Whatcom County Comprehensive Plan Policy 6A-1 establishes the following LOS standard for the ferry:

The Lummi Island Ferry Advisory Committee (LIFAC) is cooperating with Public Works to develop an updated LOS standard. LIFAC will present a revision to this section when that work is complete. The interim LOS is calculated using the scheduled trips, the estimated car units of the ferry and the Small Area Estimates Program (SAEP) population figure. The interim standard is established at 439 (LOS = (Scheduled one way trips X estimated car units for the boat) X 2 / SAEP [Small Area Estimate Program] population figure from OFM for Lummi Island).

The Special Programs Manager for the County Public Works Department confirmed that the ferry service currently meets the interim LOS standard.

Proposed Improvement Projects

The Six-Year Transportation Improvement Program includes construction of ferry terminal improvements, preliminary engineering and design for replacing the Whatcom Chief, and preliminary engineering and right-of-way acquisition for relocation of the ferry terminal.

Total Transportation Costs

Transportation projects, including road and ferry projects, total approximately \$54 million over the six-year planning period. This includes approximately \$39 million in local funds, with the remainder coming from the State and Federal governments.

Chapter 10 — Stormwater Facilities

Existing Stormwater Management Facilities

The Public Works Department is responsible for design, engineering, and construction of county owned stormwater facilities. Many stormwater facilities are road related stormwater conveyance systems such as culverts and ditches on and adjacent to county roads. Others are off right-of way facilities that control storm flows and improve water quality.

In response to increasing federal and state mandates to manage stormwater and the public's desire to improve stewardship of sensitive watersheds, Whatcom County established a Stormwater Division in 2005. The Stormwater Division is responsible for planning, designing, engineering, and construction of stormwater facilities. Inventories of existing stormwater facilities are maintained by the Public Works Department. The Engineering Services Division maintains an inventory of all road-related facilities. The Stormwater Division maintains an inventory of public and private stormwater facilities in the area covered by the County's NPDES Phase II permit for Municipal Separate Storm Sewer Systems. This inventory includes ditches, culverts, catch basins, vaults, ponds, and swales. Completed Stormwater Construction Projects since the Stormwater Division was created in 2005 are listed below.

Whatcom County Public Works regularly seeks and is awarded grant money that contributes to the design and construction of these stormwater projects that improve water quality through treatment systems and stream stabilization.

Future Needs

An increasing emphasis on the protection of sensitive watersheds has resulted in the adoption of comprehensive stormwater plans, including plans for Lake Whatcom and Birch Bay. The adopted plans identify work towards planning, design, engineering, and construction of capital projects intended to address stormwater issues.

Proposed Improvement Projects

Stormwater improvement projects totaling over \$12 million are proposed over the six-year planning period as shown below. These costs would be paid by Real Estate Excise Tax (REET), Lake Whatcom Stormwater Utility, grants, Road fund, and funding from the Birch Bay Watershed and Aquatic Resources Management District (BBWARM).
