Date: Monday, December 2, 2019, 01:56 PM PST

The research has been made available to every one on the Whatcom county council. There is no proof there is a noise issue or a safety issue In the Drayton Harbor [mud flats] area where hunting migratory waterfowl takes place,

Hunting privileges in Whatcom county is very sacred especially to migratory waterfowl sportsman.

This complaint is stemming from someone that moved here from some where else that did not do there home work before moving to Whatcom county.

We who live in Whatcom county that live in a rural agriculture environment don't complain about the smell of money when you live next door to a dairy farm.

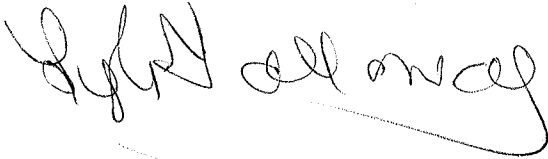

The Whatcom county chapter for the Washington waterfowl Ass. posted a open forum petition on a social media site pertaining to this no shooting ordinance, we have Over ~~1500~~ signatures stating this is not fair and nothing but anti hunting propaganda issue.

1200

This should be a easy VOTE NO for the board..

Whatcom County Chapter President...

Lyle Galloway.
