---

**TITLE FOR AGENDA ITEM:**

Amend contract with Stericycle Environmental Solutions to extend term

Related Contract: 201211014

Subject Area: Waste Management

Action Taken: 1/12/2016: Approved 7-0

**SUMMARY STATEMENT OR LEGAL NOTICE LANGUAGE:**

The Whatcom County Hazardous Waste Management Plan calls for hazardous waste education, the collection of moderate-risk waste at a collection and storage facility, and transportation of the collected waste materials to a treatment and/or disposal facility. This contract began in 2013 and is a result of RFQ 12-70 awarded to Burlington Environmental. Stericycle Environmental Solutions has since purchased Burlington Environmental and assumed contract responsibilities. The purpose of this amendment is to extend the agreement for an additional three year period. The amendment includes clarifying revisions to the Scope of Work; including making the off-site collection events at the discretion of the County.
